THE PEGASUS

As the new lines of the Rolland Physical Education Centre begin to grace the College grounds, the comments of both past and present Collegians are being heard. However, despite some conflicting opinions, there is a general atmosphere of excitement and hope as the final stages of the first section of the Centre are being completed.

The actual building of the Centre is an architectural achievement, blending with the new look of the seventies, begun with the new Morrison Hall. With the new changing rooms available, work is now continuing on the renovation of the downstairs section of the Morrison Hall. The long-awaited day-boy common rooms will be prepared and the final landscaping work between the Hall and the gymnasium completed.

In future years we hope to see College teams showing the benefits of the Rolland Centre on the river and at the Combined Sports particularly. To keep up the pace set by Melbourne Schools in these sports, where physical development is so important, it is necessary to have the facilities for intensive training. Now, with an increase in both facili-

ties and staff for physical education, the opportunities of improving physique and fitness are more appealing to the boys. No more will prospective rowers and athletes have to train in a "temporary" building with rather less than ideal facilities. They will have all the modern equipment of a gymnasium which would rival any in Australia.

Apart from increasing the fitness and performance of school teams, it is obvious that one of the great appeals of the new centre will be to the non-sporting boy. We know the benefits of a sound mind in a sound body, but for some, physical exercise has been unpleasant and laborious. Now these boys have the opportunity to enjoy a new wealth of activities made available in the Rolland Centre.

The Rolland Centre, then, stands as a challenge to all Collegians: to improve physical fitness and to improve team performances. There is another challenge too, of course. We must also maintain the academic standards achieved over the past few years, as the Rolland Centre should make an indirect contribution to this area of our school life as well.

Stuart Laidlaw

It is with sorrow that we record the tragic death on 28th March, 1970, of a loyal member of the Prep. School, Stuart Charles Laidlaw.

Stuart entered The Geelong College at the beginning of 1969 as a boarder in Rolland House. An active and thoughtful boy, he made friends amongst both the staff and boys, establishing himself as a capable student within the classroom as well as actively enjoying the outdoor activities. He was reliable and responsible, and during his short time in Second Form had begun to show talent with his swimming and his classwork. In all, Stuart possessed fine Christian principles and qualities of generosity, moral toughness and a genuine concern for others. We at the Prep. School are better for having known him: we remember him with affection and with pride.

"Tim" Maltby

In 1965 "Tim" Maltby entered the Preparatory School at the sixth grade level and proceeded to involve himself fully in the life of the College. However, a malfunctioning of the heart precluded him from full participation in physical activities. He accepted this handicap in such a manner that his cheerful fortitude was both an inspiration and a rebuke to those of us who, under far less difficult circumstances, are inclined to complain of our lot. "Tim" faced the prospect of a major operation with courage and with optimism regarding its possible benefits but the ordeal proved to be more than his heart could bear. We remember him with affection and honour his gallantry.

ONE: ASTEROIDS

SIC ITUR AD ASTRA. Unfortunately, however, we don't always make it! In this new section, which replaces School Activities in this issue, we record some of those moments when we did reach the stars and some of those moments when we . . .

We hope that Asteroids will show, in an interesting way, what, when, where and how activities in the school are functioning and we hope, too, that this may give people a chance to laugh at themselves — an opportunity which can make for a richer, happier school life.

On May 7th, the Principal presented a ceremonial sword to the Cadet Corps. The sword was a gift of Dr. M. A. Buntine, who was Principal of the College from 1946-60. The sword, which was presented at the final parade of first-year cadets at the May camp, belonged to the late brother of Dr. Buntine. Cadet Under-Officer S. McD. Davey received the sword on behalf of the Unit.

Photo, courtesy "The Geelong Advertiser"

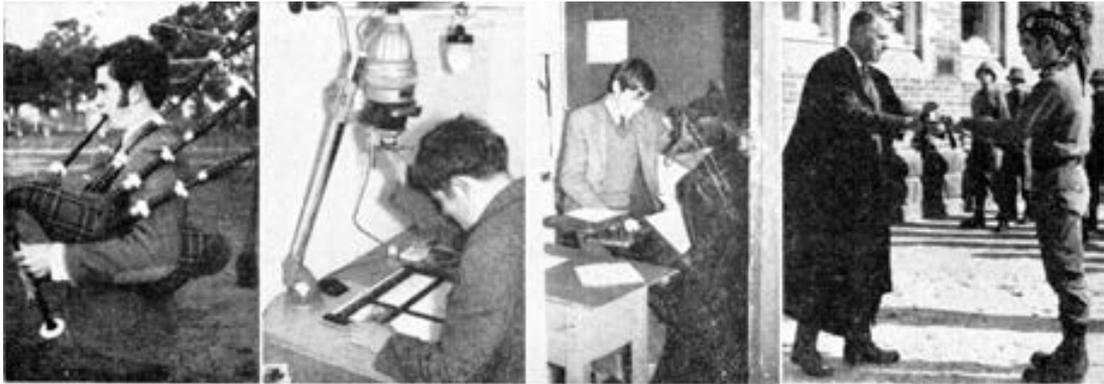

The P.F.A., under the leadership of the Chaplain, and president, Peter Dickson, enjoyed a successful and profitable term of activities. The annual "Rowing Forum" this year was honoured with the patronage of Mr. Albert Bell, Mr. Lindsay Macmillan, Richard Morris and the Captain of Boats. Despite some dithering around, the show started almost on time — and an enjoyable time it was. The next meeting introduced Mr. David Whitton from the Preparatory School, who gave an extremely interesting and entertaining talk on his Middle Eastern experiences — again a roaring success. The final activity of the term included a badge presentation and service at Morongo. Fifty new members received badges and this interest is indicative of the rejuvenated enthusiasm in the P.F.A. this term.

Whilst on the subject of religion in the school, it would perhaps be proper to mention the fact that a New English Bible has been presented to the prefects for use in readings at morning assembly.

8—THE PEGASUS,

The Pipe Band, under the leadership of Tim Johnstone and Drum Major Hugh Seward, received a large intake of new boys from the Preparatory School and sufficient instruction was difficult to provide. The camp at the end of first term did much to arouse enthusiasm, and with the acquisition of nine new sets of pipes, the Band looks certain to make its presence felt throughout the school in the second term. It would appear, also, that an inter-house competition in piping would be of great interest to Mackie.

In the fourth week of term, Mr. Thwaites proudly announced a new rank in the hierarchy of the College. The School Officers were inaugurated. Thanks to these fine men Morrison Hall has been kept running efficiently, the tuckshop has faced no more boycotts (perhaps Chris Webster is the reason), the grounds have been kept immaculate, as have the test tubes, and the bicycles. To take on the mantle (or is it "cloke"?) of School Officer is related to an asteroid entry later, it seems, — see page 10.

The new lawn is doing remarkably well in its new variegated shades, considering the great deal of rain we had during the vacation. Geography students attending the Scotch v. Hale football match would have been amazed to see the dendritic drainage form as the water rushed away from the strategically placed drains.

* * * *

Oscar is still trying to unwind that pipe from the rotary hoe.

A new activity embarked upon by the sixth form this year is the weekly "Headmaster's period." This hour a week is devoted to discussion between the Principal and the sixth form and has the dual function of airing any problems and allowing the Head to meet more members of the school. The editors approve of this undertaking, and give it their full support, but feel that perhaps the too prevalent apathy within the school tends to destroy the boys' capacity for making the most of such occasions as these.

The Social Service collection within the school was yet another victim of reform in this term of change, and again the changes have met with success. Instead of the weekly collection by the social services representatives, from the school as a whole, the collection is taken in houses. Each house also has a vote as to what they wish to support — and the consequent growth of interest and support is indicative of the efficiency of this system.

The appeals that specific houses supported during the first term were:—

- Calvert: Victorian School for deaf children.
- Mackie: Austin Hospital spinal unit.
- McArthur: Rennie's Mill Student Aid Project, Hong Kong.
- Morrison: Blind Institute School.
- Shannon: Dyslexic children.
- Warrinn: St. Nicholas' Hospital for mentally retarded children.

* * * *

Dave Clarke lost his shoes after the Melbourne Grammar match — perhaps his 95 not out wore them out!

JUNE, 1970—9

If Hughs, Torode and Seward, join the police force, chances are they'll be in the arson squad.

* * * *

The formation of the "Students' Advisory Council" has been, without doubt, one of the highlights of the school term. This body, chaired by the school captain, with the vice-captain, a member from each House, and two members from each year group, is to represent us, and be an advisory body to the powers-that-be in our "benevolent autocracy".

Mr. R. W. Seaton took over the reins of McArthur House following Mr. Wardle's departure and, from indications on the sporting field he seems to have forgotten completely that yellow was a favourite House colour not too long ago.

* # * *

Thursday, 18th June saw yet another happy meeting of members of the Council, staff and their spouses at the Council-Staff Dinner held at Kirrewur Court. Brief, but often witty, speeches were provided by new staff members.

The Library Council and Committee have been extremely busy this term — and the efficient running of this focal point in the school is largely dependent on these hard-working groups. Hugh Seward was elected chairman of the council, Tim Johnstone, his right hand man and Tim West his secretary. Programmes that have been undertaken include a complete re-organization of the history libraries and an organization of the previously disorganized school archives.

One of the activities undertaken by the Library Council this term was their attendance, with the Morongo Committee at a library seminar in Melbourne. Apart from automatic/manual driving difficulties this was such a successful enterprise that it was decided that the Library Council should organize the annual library night along the same lines. The seminar included various speakers on different books and a discussion on any issues raised. The activity was profitable and enjoyable — and it is hoped that a similar interest will be shown in the libraries' night.

Additions to the Senior School teaching staff were:—

- Mr. P. E. Coghlan, B.A. (Melb.) — English, Term I only. Mr. Coghlan, after a successful term, returned to the university.
- Mr. C. S. Crockett, Dip-Ed. (Victoria Uni., N.Z.) — English and Geography.
- Mr. P. A. Cronk, Dip. Phys. Ed. (Melb.) — Physical Education.
- Mr. C. E. Harbison, B.Sc. (Melb.), Dip.For. (Canberra) — Agricultural Science.
- Mr. P. R. Hunt, M.A. (Trinity, Dublin), Dip.Ed. (Oxford) — Latin.
- Mr. K. R. McKechnie, B.Sc, Dip.Ed. (Melb.), M.A. (San Francisco) — Biology.
- Mr. M. C. Norman, B.A. (Columbia) — Mathematics.
- Mr. N. R. Patchett, B.A. (Victoria Uni., N.Z.), Teacher's Cert. (N.Z.) — Geography.
- Mr. P. E. Ryan, M.A. (Oxon.) — English from Term II.
- Mr. R. F. Slingo, B.E.E. (Melb.), T.S.T.C. — Mathematics.

10—THE PEGASUS,

The House of Guilds has again been a valuable institution within the school for the encouragement of creativity. With Stephen Davey as its sub-warden, the 'H.O.G.' has provided boys with new activities in welding, pottery and copper enamelling.

* * * *

"The mop came up to me and said, 'I was gonna do you in, but all of a sudden I couldn't move. What do you make of it?' We will continue this story later."

Yet another change in the school this year has been the moving of a small group of senior boarders into the Refectory Block. Each boy has his own room with private study facilities, and there is also a common room where all can meet. With the competent leadership of Mr. Slings, such an enterprise encourages individuality and fosters the responsibility of the group.

There was some debate as to whether this particular issue of "The Pegasus" should be dated June or August. "The Pegasus" committee, which was a small, hard-working group of budding journalists and "litterateurs", decided on "June". The committee, of course, blamed the master-in-charge, the master-in-charge blamed the printer, the printer blamed the block-maker and the block-maker blamed the photographer; but after looking at the quality of the team photographs, he obviously can't be blamed, so we have decided that the late issue of the magazine is the result of inclement weather.

That Mr. Tattersall, Mr. McKechnie and the Camera Club have been busy does not need words for proof. Swimming pictures, Asteroid pictures and Mr. Tattersall's frayed appearance at the end of June speak for themselves.

* * * *

The behaviour of the Scotch and Hale boys on the recent football carnival was exemplary — a certain member of staff had nothing but praise for their manners and charm — in "The Gold Diggers" ".

16 June

Behold! A Presbyterian Visitation.
 Grant them evangetic veneration;
 Heed their ethereal revelation;
 Pray for eternal elevation,
 Or suffer everlasting evisceration.

* * * *

Social Service trips at the end of first term were extremely successful as activities, and from all reports, as community aid ventures. One group went to Ocean Grove under the leadership of Mr. Seaton and Mr. Patchett to plant marram grass to conserve sand. We noticed a vast amount of water pollution in the area, but hope that no (surfing) member of the group was to blame.

The second group went to Bannockburn with Mr. Davey, Mr. Harbison and Mr. Morgan, to aid the forestry commission — by thinning areas of forest, and cutting a fire break. The other trip was a smaller group of six boys who went to "Serendip," Lara, as a nature conservation venture, and built resting places for birds.

That hard-working group of budding journalists and litterateurs, The "Pegasus" Committee, is:—

Master-in-Charge: A. D. Mahar, Esq.

Editors:

P. J. Dickson	R. B. Hastie
T. G. Johnstone	C. S. Sutherland

Committee:

P. W. Crockett	V. M. Lamb
R. K. Doyle	D. A. McKenzie
C. J. Hooke	F. E. S. Soon

Mr. H. Bausor, B.A., Dip.Ed. (Melb.) left the staff last December to return to Ballarat after a year's service in the Mathematics Department. His teaching ability and quiet humour were much appreciated as were his interests in the life of Morrison House and in Exploration Society activities.

Mr. M. B. Keary has taken a year's leave-of-absence from Latin teaching this year. He is working towards his Master's degree, in which we wish him success.

On Saturday, May 2, Melbourne University held its Open Day. Many Collegians were in attendance — at least at some of the functions — and gained profitable information about future education and careers. The comments of these people indicated their enthusiasm for the university system — and its freedom and emphasis on individual choice. All who attended, found it a worthwhile experience.

* * * *

Stewart Rankin has just returned from eight weeks' long service leave which he took in Queensland. It is a pleasure to have him back again.

It was most pleasing to see Mr. T. L. Macmillan back after his illness last year. He is now working in a part-time capacity, but has had a busy term none-the-less. He gave much assistance to Mr. C. E. Harbison early in the term, and was deeply involved in activities on the river, as we have come to expect.

A player from Teachers' College trying to put D.E.C. off his game was heard to yell, "Hey, watch it, Superman." Noel Russell, nearby, quipped: "Talking to me?"

* * * *

The choir, after losing most of its senior voices, has performed creditably. Fred Soon, elected choir leader, has performed his tasks adequately and under the control of Mr. Martin the choir is now a competent group.

* * * *

Other activities which boys continue their interest in, include the Military Band under Mr. Mawson, the 'Fossicking Club' under Mr. Norman, a Bible Study Group produced by Mr. Seaton and directed by Richard Moore, Exploration Society trips, Outward Bound, Saturday night films for boarders . . . the list goes on. Ours is a good school, a busy school, and it is largely such activities as mentioned above encouraging creativity and interest, that protect us from one of the major dangers in our modern technologically-oriented society: boredom.

Mr. J. R. HUNTER

After twenty-three years' service as a master at the College, Mr. J. R. Hunter resigned from the school in December, 1969, and moved with his family to Melbourne.

Mr. Hunter came to the College in February, 1947, from Launceston Grammar School, and quickly became well-known as a teacher of English and Geography in the middle school. He won a reputation for punctilious attention to detail in his classes. In the 50's and early 60's he prided himself on the success of his

candidates at the Intermediate examinations, and won the respect of his pupils for his work with them in his subjects. For many years he was Form Master of Form IVA2.

Mr. Hunter also showed his interest in the sporting side of College life by providing valuable help in cricket and football. No mean footballer himself, he was appointed by Dr. Buntine as coach of the First XVIII in 1951, a position he held for the following seven years. During this time he produced several "vintage" teams. The First XVIII of 1954, possibly the outstanding one of the period, won only two matches, but lost the remaining three by a total of only 8 points!

For many years, in the early 50's, Mr. Hunter took his part as an assistant in resident duties, and later became Housemaster of Shannon House on the death of Mr. E. B. Lester, in 1967.

All Collegians, past and present, will miss John Hunter, whether as bell ringer, sporting coach, housemaster, or in the classroom. We extend to him our very best wishes.

Mr. B. R. WARDLE

At the end of last year, Mr. Brian Wardle resigned from the staff to take up a position in the Department of Agriculture connected with information. It was in 1952 that Mr. Wardle first came to the College in charge of the "Mulchers", as he affectionately called the agricultural science students. Incidentally, one of his students succeeded in gaining the Exhibition in Agricultural Science. Mr. Wardle made himself very busy joining in activities with the boys, including vacation

expeditions and coaching sports teams. (The football contests he arranged between sides representing the "Poets" and the "Peasants" exhibited much vigour as well as some art and contributed to the lighter side of school life in the 1950's).

For a few years his teaching career was interrupted as he joined the Staff of the Textile College at the Gordon Institute but he returned to take up a position at the Preparatory School, where for a number of years he was Director of Studies. Following a year's leave of absence, during which time he taught in England, he came back again to the Senior School where he was Housemaster of McArthur House and also became a guide and friend to many boys of all Houses, particularly those in the General Stream of Studies. His wide experience and knowledge of the field encouraged many boys to seek his advice on choosing a suitable career.

We hope history may be repeated and that we may yet see him again making his very considerable contribution to College life.

TWO:

THE OLD, THE NEW AND THE WHERE-WITHAL

THE OLD

Since the beginning of the 1932 school year, Geelong Collegians have obeyed the signals of the bell in the Quadrangle. During the Christmas holidays of 1931/1932 the bell was given to the school "through the generosity", said "Pegasus" of March, 1932, "of Mr. A. N. Shannon who procured it through the kindness of Mr. Hirst of the Excelsior Woollen Mills, and of Messrs. Howard Smith."

The article in 1932 went on to say that this bell came from S.S. "Otago", built in Glasgow in 1863 and wrecked off the coast of New Zealand in 1876. At the time she was carrying 5000 ounces of gold, and the salvage operations therefore attracted some attention.

Interesting though these facts are, however, even more interesting is the fact that the bell in the Quadrangle bears the date 1869 — not 1863.

Research recently has shown that there were two ships called "Otago" built in Glasgow in 1869, and our bell almost certainly comes from one of these. One of these was a ship of 993 tons built for the New Zealand run. She was a handsome vessel and once made the trip from England to New Zealand in 78 days. In 1889 she was sold to a Portuguese firm who renamed her "Ermilla", and was still Portuguese-owned when she was torpedoed and sunk during World War I.

This end makes it unlikely that the bell in the Quadrangle came from the ship "Otago".

The other "Otago" built in 1869 was much smaller. She was a barque of 367 tons. She was 147 feet in length and had a beam of 26 feet. More important than her measurements, however, is the fact that she was the

14—THE PEGASUS,

first command of the famous author, Joseph Conrad, who took command in Bangkok in 1887.

At that time Conrad was second officer of S.S. "Vidar" which was in Bangkok when the captain of "Otago" died suddenly. The British Consul gave the command of "Otago" to Conrad who took her to Singapore, Sydney, Melbourne, through Torres Strait to Mauritius, and than back to Adelaide. Conrad, to his regret, then had to return home because he was needed by his family, but his attachment to "Otago" is reflected in his story "The Shadow Line".

"Otago" changed hands several times and in 1900 was owned by a Mr. Gerber of Sydney who sold her in 1903 to Huddart, Parkers as a coal hulk, and the steamer "Corio" towed her to Melbourne where she stayed until 1912 when the tug "Eagle" towed her to Hobart.

The once-gallant barque gradually deteriorated in the Derwent until finally she was of no use any more even as a hulk, and in 1931 she was sold at anchor to a Captain Dodge for £1. He beached the hulk, and until quite recently parts of the hull could still be seen near a place called Dodge's Ferry. Her wheel was discovered in a store-room on board and has been presented to the Honorable Company of Master Mariners in London, and the Conrad Society of U.S.A. some years ago removed the stern section to take it to America for restoration.

Although there is a gap in the story, circumstantial evidence points strongly to the bell at the College having come from the barque "Otago". The fact that she was broken up in Australia in 1931 seems to show that we can fairly confidently claim that our bell once marked the watches to regulate Conrad's first command.

I have been greatly assisted in my researches by an Old Boy, Mr. Andrew Walls; by Mr. Peter Williams, the well-known author, ship-lover and historian; and by a present Collegian, Andrew Willett, who first drew my attention to the existence of the larger of the two ships built in 1869.

A. Mel. S.

THE NEW

The demolition of the old wooden pavilion which stood on the south side of the oval for so many years would be a sad occasion were it not for the splendour of the new building which has replaced it. Nevertheless, as the old "Pavvy" fell to the wreckers' hammers and crowbars there were some poignant moments.

The lining-boards of the original "Teddy's Room", scarred with generations of schoolboy name-carrying, lay splintered in a heap of rubble. The jarrah pillars supporting the grandstand roof stood like sentinels over the wreckage about them until they, too, were felled — each one being so heavy that it was a struggle for two strong men to lift it.

Finally everything was gone, and earthmoving machines made quick work of the grassy bank on which a building, once the glory of College sportsmen, had stood.

The new building went through the various stages of development so confusing to the eye of the layman, and gradually began to emerge. And what a building it is! And this is only the first stage of it!

It is really a long, low building with an extra storey added at each end. The ground floor provides changing and locker-room accommodation and shower-recesses such as Collegians never knew. Also on the ground floor is a Physical Education office and record-keeping section, adjacent to a small gymnasium. The first storey at the eastern end is a new tuck-shop, and the first storey at the western end is the upper level of the gymnasium. There is therefore a raised courtyard on the upper storey between the tuck-shop and the top of the gymnasium, and this area is already a popular place to stand and watch football, or to stand and talk, or to sit and think, or just to sit.

The next stage to be built will be similar in size and shape to the first stage, but will be of two-storey height for its entire length, and

this will house an enclosed and heated swimming pool. The College will thus have a most valuable sporting and recreational facility of the sort which we have envied in other places for a long time.

The third stage will be another building similar in shape to the swimming pool building, and it will be a gymnasium hall, big enough for basketball matches. The small gymnasium in the first stage will be a wing of the gymnasium hall and will house the fixed gymnastic equipment.

Because the pool will be on the north, and the gymnasium on the south, of the first stage, the raised courtyard will become an even more pleasant and popular place than it already is because it will become a sun-trap on all four sides and therefore sheltered from the wide variety of Geelong winds.

When the entire complex is completed — and there are even suggestions of squash courts eventually being built on the western end — the Rolland Centre will be a complete and beautiful Physical Education Centre. This is something the College has never had before.

The completion of Stage One has made it possible to begin on the task of completing the renovation of Morrison Hall. The new changing rooms make the old ones under the Hall redundant, and the ground floor of the Hall will provide space for dayboy common-rooms — another facility the College has never had. No wonder there are many Old Collegians who say they were born much too early.

THE WHERE-WITHAL

The first half of 1970 has been a busy time of the College who have been actively involved for the many Old Collegians and other friends in a major capital funds appeal — Project Pegasus. Many approaches have been made to supporters of the school in Geelong, Mel-

bourne, and a wide range of country areas.

Dr. H. N. B. Wettenhall, Chairman of the College Council, is Appeal Chairman and Mr. F. R. Herd is Campaign Chairman. Both have been very busy co-ordinating the work of a team of about seventy people. The nerve-centre of the whole operations is a busy office situated in one of the rooms under the new forecourt between Morrison House and Morrison Hall.

Although the intensive phase of the appeal lasted only for the months of March to April, careful planning was made by a group of committees who begun this work last year. It was recognised that such an important project needed such planning if the College was to benefit fully by raising the funds necessary for the College of the future.

Late in February a dinner was held in Morrison Hall to launch Project Pegasus. The Hall was packed with more than 300 people who heard details of what was planned. The guest-speaker was Professor J. D. McCaughey, Master of Ormond College and a member of the College Council, who spoke of the ever-increasing need for men to be educated well enough to live in a world of great and rapid change.

In broad outline, Project Pegasus sought funds for the completion of the Rolland Centre, the building of a new library and resources centre, and the improvement of boarding facilities. It is interesting to note that most of these facilities will simply replace existing ones which either are now so old that they are worn out or are no longer adequate for the larger and more complex College of today. It is a reminder that many of the buildings are now one hundred years old, and they have served us well. Many of them will continue to be used for many years to come, but perhaps in different capacities.

It is too early yet to judge the outcome of Project Pegasus in terms of money, but there is no doubt that occasions which draw together the far-flung College family are impressive and heart-warming. Many of the functions which have been organised to advance Project Pegasus have demonstrated the great fund of goodwill and generosity the Geelong College is so fortunate to enjoy.

THREE:

THIS SPORTING LIFE

TENNIS

Master-in-Charge: P. R. Hunt, Esq.

Captain: T. A. Longton.

Again a large number of boys wanted to play tennis in first term so it was necessary to hire The Geelong Lawn Tennis Club's ten porous courts for every sport night. We also had the use of St. David's two courts and our four school courts which compare very favourably with other School's facilities.

With only two players back from last year's team the firsts did well in winning three matches and losing only two. Our loses were against Wesley and Caulfield Grammar, both very strong teams. All those who played showed much improvement by the end of the season, best performances being those of Terry Longton and Nigel Steele who lost only two

doubles matches as first pair and one singles match each.

The other teams had more success than the Firsts, with the Seconds and Under 15A teams losing only one of their matches. The Thirds only played two matches and easily won them.

Because of bad weather the Social matches with Morongo were cancelled, but a Staff v's Boys match was organised. A pair from each team made up the Boys' team which soundly defeated the Staff although the Staff did have some success through the talent of Mr. Grainger.

The annual A.P.S. against A.G.S. Tennis Match was held at the end of the season and in the Open team, Terry Longton and Nigel Steele were chosen, while Geoff Stokie was chosen for the second time in the Under 15 team. The A.P.S. were narrowly defeated in the Open division by a strong A.G.S. team.

Messrs. Hunt, Dobb, Slingo and Stevenson were untiring in their efforts in organising all the matches and practices which gave the boys a most enjoyable term of tennis.

The 1970 Tennis Committee: Longton T. A. (Capt.), Cherry J. (Vice-Capt.), Steele N. R. C, Steele P. C. C, Dickson P. J.

TENNIS TEAM

Standing: G. R. Robertson, P. J. Dickson, P. J. Deans, D. G. Thompson, I. A. Deans, J. L. Barkley.
 Sitting: P. C. C. Steele, J. Cherry, P. R. Hunt, Esq., T. A. Longton (Captain), N. R. C. Steele
 (Vice-Captain).

FIRST TEAM

Coach: P. R. Hunt, Esq.

Those who played were: Longton T. A. (Capt.), Cherry J. (Vice-Captain), Barkley L. S., Deans I. A., Deans P. J., Dickson P. J., Robertson G., Steele N. R. C., Steele P. C. C., Thompson D. G., Witcombe T. J.

RESULTS:

- G.C., 5 sets, 95 games, lost to W.C. 11 sets, 134 games.
- G.C., 12 sets, 128 games, defeated X.C. 4 sets, 69 games.
- G.C., 13 sets, 131 games, defeated B.G.S. 3 sets, 72 games.
- G.C., 4 sets, 105 games, lost to C.G.S. 12 sets, 132 games.
- G.C., 10 sets, 106 games, defeated C.B.G.S. 6 sets, 81 games.

SECOND TEAM

Coach: K. H. McKechnie, Esq.

Those who played were: Weddell J. S. (Captain), Barkley L. S., Deans I. A., Dickson P.

J., Eaton B. W., Hunt J., McKindlay H. D., Robertson G., Soon F. E. S., Spear P.

RESULTS:

- G.C., 3 sets, lost to W.C, 13 sets
- G.C., 11 sets, defeated X.C, 5 sets.
- G.C., 12 sets, defeated B.G.S., 4 sets.
- G.C, 10 sets, defeated C.G.S. 6 sets.
- G.C, 14 sets, defeated C.B.G.S., 2 sets.

THIRD TEAM

Coach: R. T. Dobb, Esq.

Those who played were: Harrison D. R. (Captain), Archer G. J., Brian R., Fairbairn G. L., Falconer A. S., Heard L. B., Schofield J. W., Spencer E. W., Thorn D. E., Wills D. L.

RESULTS:

- G.C, 12 sets, 65 games, defeated G.C, 4 sets, 48 games.
- G.C, 15 sets, 92 games, defeated C.G.S., 1 set, 40 games.

18—THE PEGASUS,

FIRST VIII

Cox, A. S. Colvin; Stroke, H. G. Seward; 7, D. B. Sutton; 6, R. W. Moore; 5, R. B. Hastie; 4, R. H. Thomas; 3, K. I. McDonald; 2, D. G. Abrecht; Bow, E. D. Simson.

UNDER 15 TEAM

Coach: R. F. Stingo, Esq.

Those who played were: Hunt P. R. (Captain), Hobbs D. C, Hobbs S. R., Lucas W. R., MacLeod J. S., MacIntyre A. D., Pickering N. J., Smith G., Tanto J. B.

RESULTS:

- G.C., 2 sets, lost to W.C., 6 sets.
- G.C., 7 sets, defeated X.C., 1 set.
- G.C., 6 sets, defeated B.G.S., 2 sets.
- G.C., 3 sets, lost to C.G.S., 5 sets.
- G.C., 5 sets, defeated C.B.G.S., 3 sets.

ROWING

*Masters-in-Charge: N. M. Turner', Esq.
 T. L. Macmillan, Esq.*

The 1970 Rowing Season was another enjoyable one, despite the lack of success in the

actual Head of the River Boat Races. Rowing began with its usual early start on the first day of school. For the remainder of the season team spirit and mateship flourished in the Boat Club as a result of the enthusiasm and interest displayed by the coaches, master and boys.

On Saturday, 7th March the crews experienced their first and only official racing practice before Boat Race, this was the Barwon Regatta day. Although none of the crews was completely successful, valuable experience was gained for the Regatta. Then the crews aimed at settling down and preparing for the Head of the River.

The next, and most memorable, highlight of the season was the Easter Rowing Camp. The First, Second and Third Eights participated in this camp under the friendly control of Mr. S. Coulson. The team-work which the crews developed over this period, both in and out of the boats, assisted greatly in acquiring the skill of rowing needed for the Head of the River. Although changes occurred in the crews, the boys prepared for April the 10th and 11th with some very solid rowing.

JUNE, 1970—19

Albert Bell, Robert Purnell and Dick Morris were guests representing the coaches at the Head of the River morning Assembly. For the first time all five crews were given a highly spirited send-off instead of just the First and Second eights. Albert Bell said that the send-off was the best he had witnessed at the College. John Weddell, Stephen Davey, Charles Andrews and Tim West organized the performance of this rather different send-off.

For the heats of the First and Second Crews over one mile on Friday afternoon the conditions were calm on the river, with a slight head wind. These conditions were not suitable to either of our crews, however.

The second VIII only managed to gain second place to Xavier with St. Kevin's in third position, whilst the First VIII were defeated by Wesley, Xavier and Brighton. Naturally the First crew were disappointed by its row, both for themselves and for the school.

On Saturday the conditions were once again a disadvantage to the College crews, although the Fourth and Fifth VIII's both came second in their respective heats. On the other hand, the Third VIII won their heat in good style.

In the afternoon the Finals were underway and the Fourth and Fifth VIII's both gained second place in their respective Intermediate Finals. The Third VIII, which was the only College crew in a Winners' Final failed to maintain their high standard of performance and lost to Geelong Grammar and Wesley. The Second VIII were defeated in their Intermediate Final, but rowed a fine race to come second to Wesley College. The First VIII in the Losers' Final were defeated by Carey and Caulfield, but managed to redeem themselves against Brighton who had beaten them in Friday's heat.

Our congratulations go to Geelong Grammar School First VIII for their highly successful season, and also to Wesley College First VIII for their courage and determination which brought them on to win the Head of the River 1970, after being classed as the 'under-dogs' by the critics.

All crews are thankful for the unflinching guidance and encouragement of the coaches, Albert Bell, Robert Purnell, Syd. Thomas, "Dusty" Millar and Dick Morris, all of whom gave their time to do a tremendous job with the crews.

JUNIOR ROWING

The Junior Rowers of 1970 showed unbounded enthusiasm and interest in the Boat Club throughout the season. This is a pleasing aspect for the school, because these Junior Rowers will be the Senior Rowers in the

near future. It is with this type of spirit that Boat Races are won.

Junior Regatta Crews were:

SIXTH VIII

Coach: S. McD. Davey

Bow, C. J. Hooke; 2, S. C. Murdoch; 3, C. C. Stewart; 4, P. J. Longden; 5, C. A. Anderson; 6, A. Westman; 7, S. W. Amezdroz; Stroke, G. I. Lindquist; Cox, A. I. Cameron. Junior Regatta

Heat: 2nd by one and a half lengths.

Intermediate final: 2nd by half a canvas.

SEVENTH VIII

Coach: L. Punshon, Esq.

Bow, P. D. S. Nail; 2, T. B. Chapman; 3, S. M. Chirnside; 4, A. A. Boyle; 5, G. D. Amezdroz; 6, J. P. Brown; 7, J. E. Tansley; Stroke, I. B. Moreton; Cox, T. H. Silcock.

Junior Regatta

Heat: 1st.

Winners' final: 3rd.

EIGHTH VIII

Coach: G. R. Roydhouse, Esq.

Bow, D. C. Slattery; 2, A. R. Moore; 3, J. W. C. Jenkins; 4, R. G. Eastoe; 5, J. F. Dehnert; 6, J. N. Harris; 7, G. M. Pyle; Stroke, H. W. Kinninmonth; Cox, C. S. Pinner.

Junior Regatta

Heat: Equal 1st.

Winners' final: 4th.

FIRST IV

Coach: G. R. Roydhouse, Esq.

Bow, J. J. Chalmers; 2, C. F. Macauley; 3, A. C. Hamilton; Stroke, J. R. D. Sutherland; Cox, D. A. Brumfield.

Junior Regatta

Heat: 2nd.

Intermediate final: 1st.

SECOND IV

Coach: G. R. Roydhouse, Esq.

Bow, G. D. Wyne; 2, D. A. Fraser; 3, G. W. Dumaresq; Stroke, R. G. Kenner; Cox, G. L. Cunnow.

20—THE PEGASUS,

Junior Regatta

Heat: 2nd.
Intermediate final: 1st.

THIRD IV

Bow, R. B. Cambshed; 2, W. S. Crosby;
3, M. A. Sutherland; Stroke, I. M. Cole; Cox,
P. J. Pritchard.

Junior Regatta

Heat: 1st.
Winners' final: 3rd.

Head of the River Crews and Results:

FIRST VIII

Coach: A. B. Bell, Esq.

Bow, E. D. Simpson; 2, D. G. Abrecht;
3, K. I. MacDonald; 4, R. H. Thomas; 5,
R. B. Hastie; 6, R. W. Moore; 7, D. B.
Sutton; Stroke, H. G. Seward; Cox, A. S.
Colvin.

Head of the River

Heat: 1st, W.C.; 2nd, X.C.; 3rd, B.G.S.;
4th, G.C.; won by one and a quarter lengths.
Time: 4 min. 56.2 sec.

Losers' Final: 1st, Carey; 2nd, C.G.S.; 3rd,
G.C.; 4th, B.G.S.; won by one length, with
one canvas between second and third. Time:
4 min. 47.6 sec.

SECOND VIII

Coach: R. W. Purnell, Esq.

Bow, B. W. Longden; 2, C. R. Carmichael;
3, H. R. Pinniger; 4, C. W. Power; 5, D. S.
Wood; 6, P. J. S. Young; 7, I. R. Shaw;
Stroke, N. A. McLarty; Cox, D. I. Silke.

Head of the River

Heat: 1st, X.C.; 2nd, G.C.; 3rd, St.K.; won
by one length. Time: 5 min. 7.6 sec.

Intermediate final: 1st, W.C.; 2nd, G.C.;
3rd, M.G.S.; won by one and a quarter
lengths. Time: 4 min. 43.6 sec.

THIRD VIII

Coach: S. Thomas, Esq.

Bow, M. J. Moore; 2, S. C. Young; 3,
W. M. S. Stewart; 4, S. D. Hope-Johnstone;
5, P. C. Adam; 6, G. E. Balfour; 7, E. A.

Barnett; Stroke, C. M. Webster; Cox, N. T.
Slattery.

Head of the River

Heat: 1st, G.C.; 2nd, X.C.; 3rd, C.G.S.;
won by one and a half lengths: Time: 2 min.
9 sec.

Winners' final: 1st, G.G.S.; 2nd, W.C.;
3rd, G.C.; won by one length. Time: 2 min.
10 sec.

FOURTH VIII

Coach: P. Millar, Esq.

Bow, A. R. Carmichael; 2, P. J. Mayberry;
3, H. Andersen; 4, B. C. McKenzie; 5, W.
C Green; 6, G. N. Longden; 7, H. G. Todd;
Stroke, P. J. Revie; Cox, I. H. Wettenhall.

Head of the River

Heat: 1st, W.C.; 2nd, G.C.; 3rd, St.K.; won
by one and a half lengths. Time: 2 min.
15 sec.

Intermediate final: 1st, X.C.; 2nd, G.C.;
3rd, M.G.S.; won by half a length. Time:
2 min. 16 sec.

FIFTH VIII

Coach: R. Morris, Esq.

Bow, A. D. Macdonald; 2, C. D. Fenner;
3, K. M. E. Lane; 4, J. L. Carmichael; 5,
T. H. P. Clyne; 6, R. J. Paton; 7, J. McL.
McKenzie; Stroke, R. A. Stewart; Cox, P.
N. Cameron.

Heat: 1st, S.C.; 2nd, G.C.; 3rd, St.K.; 4th,
C.G.S.; won by three quarters of a length.
Time: 2 min. 15 sec.

Intermediate final: 1st, W.C.; 2nd, G.C.;
3rd, G.G.S.; won by a canvas. Time: 2 min.
19 sec.

HOUSE ROWING

Practice was held on Monday, 13th April,
and the heats were held on Wednesday, 15th
April. Finals took place on Thursday, 16th
April.

B crews, Heat 1: 1st, Calvert; 2nd, Shannon;
3rd, Morrison.

B crews, Heat 2: 1st, Warrinn; 2nd, Mackie;
3rd, McArthur.

A crews, Heat 1: 1st, Warrinn; 2nd, McArthur;
3rd, Shannon.

A crews, Heat 2: 1st, Mackie; 2nd, Calvert;
3rd, Morrison.

A and B Crews, Losers' final: 1st, McArthur;
2nd, Morrison; 3rd, Shannon; 4th, Morrison.

B crews, Winners' final: 1st, Mackie; 2nd, Warrinn; 3rd, Calvert, 4th, Shannon.

A crews, Winners' final: 1st, Mackie; 2nd, Warrinn; 3rd, McArthur; 4th, Calvert.

SWIMMING

Master s-in-Charge: R. Salen, Esq.;

C. S. Crockett, Esq.

Most swimmers enjoyed a season of enthusiasm, but although we had good swimmers in each age group, we lacked the depth needed to compete well against the stronger schools. We were weakened periodically during the season by the loss of good swimmers, our best performance being a third.

Notable swimmers were: Lowe P. S., Kroger M. D. and Harrop R. in the Open Division; Phillips W. C, McFarlane K. and Kroger R. in the Under 16 division; Hocking P., Under 15; Head J. and Morton P., Under 14.

The diving this year was taken more seriously and our standard improved remarkably with divers such as Harrop, Bull, Head,

Morton and Doak. If our divers can keep improving and make full use of the facilities at the Kardinia Pool, we will soon be a force in the diving section.

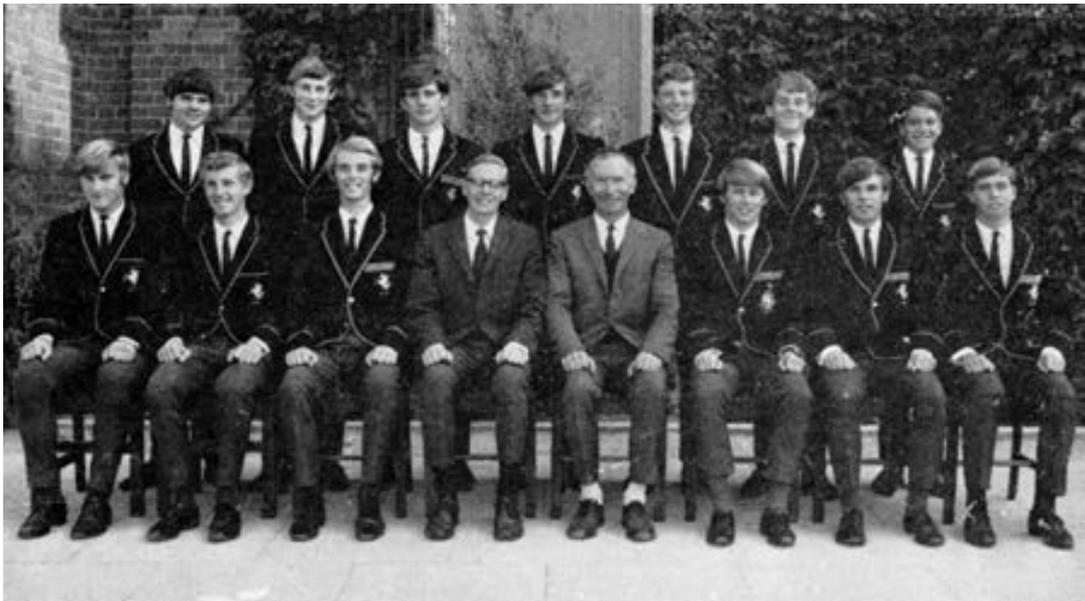

The College were again successful in retaining the Strahan Shield in The Geelong All Schools Competition for the tenth successive year. The College competed well with the help of some Prep, boys and should be proud of themselves.

A feature of the season was that Peter Doak gave up his time to coach us. With his training we improved noticeably and with earlier training our standard would have been much higher. Mr. Salen and Mr. Crockett also gave much help and guidance throughout the season.

A time recorded at The Geelong All Schools Championships in 1969 has now been recognised as a College record. G. J. Lindquist recorded 30.8 sec. for the Open 50 metre butterfly.

HOUSE SWIMMING RESULTS

1. McArthur	191 points
2. Shannon .	139 points
3. Calvert . .	101 points
4. Morrison	98 points
5. Mackie . .	59 points
6. Warrinn . .	13 points

HOUSE SPORTS

CRICKET

Master-in-charge: E. B. Davies, Esq.

David Clarke was appointed Captain of Cricket for 1970, with Alasdair MacGillivray Vice-Captain. Hugh Torode, Tim and Andrew Johnstone made up the remainder of the Committee. David proved to be a fine Captain, leading the team with skill, and setting a wonderful example in all phases of the game; his performances were equal to the best performed by our great players of the past. Equally outstanding was left arm bowler Alasdair MacGillivray, who took 39 wickets in P.S. Matches, plus 35 on the N.Z. tour, a total of 74 wickets in 12 matches. This ability to bowl fast, medium pace, orthodox spin and "Chinaman" spin marks him as a "Sobers" type of bowler in the future.

There was no pre-season match because the N.Z. tour finished just prior to school commencing. With eight of the XI tourists,

the team was in good form to start the P.S. season. This was a factor in the good performance by the College XI.

1970 was certainly the best by a College XI for a number of years; to be undefeated at the end of four P.S. matches was, to say the least unexpected. It was a pity that the match against M.G.S. was not completed, especially as David Clarke possibly missed the chance to make his first P.S. century. The last match against Carey proved to be a disaster; the team played poorly throughout, and seemed to have lost something during the Easter break. Carey proved the better team and deserved their victory.

However, the College XI can be proud of their achievements and have upheld the College reputation as a good Cricket school.

A word of sympathy must go to Christian Sutherland who suffered a recurrence of an arm injury and could not play in the final games; his strong batting was a loss to our batting strength.

To Tim Johnstone the XI express their wishes for a speedy recovery. Tim's wicket-keeping was magnificent throughout the season. Some stumpings, especially on the leg side, amazing both the batsmen and onlookers alike.

Tim's courage and team spirit was something we shall never forget.

FIRST XI

Standing: P. O. Campbell, G. B. Martin, R. S. Anderson, G. T. D. Morrow, G. S. J. Dickson, J. F. Mann, J. K. Clarke, A. P. Thompson.
 Sitting: C. S. Sutherland, H. W. Torode, D. E. Clarke (Captain), E. B. Davies, Esq., A. S. MacGillivray (Vice-Captain), T. G. Johnstone, J. A. Johnstone.

A fine leg glance?

We again appreciated the kindness of Mr. and Mrs. John Chambers for their support and hospitality in giving us two barbecues, the second of which was enjoyed by both the College XI and the M.G.S. XI.

To our ground staff who gave us excellent conditions of play, the Refectory staff for their effort, to the Tuck shop for our chewing requirements and to all the boys who worked on the score board and sight boards, we were again indebted.

Once again the parents gave us great support, especially Mrs. Sutherland who was our lone transport driver. Finally, Mr. and Mrs. Clarke entertained us at an end of season party, which was a wonderful finish to a rewarding cricket season.

HIGHLIGHTS OF 1970 CRICKET SEASON

First P.S. match

College had its first outright win since 1963, winning by 8 wickets over last year's premiers in Wesley. Alasdair MacGillivray took a match total of 10/74, and also hit up 33 runs. David Clarke was undefeated on 66, and also took the outstanding figures of 5/10 in Wesley's second innings. College's fielding was first class and this enabled them to dismiss Wesley for 60 in their second innings. Tim Johnstone kept wickets extremely well and featured in 7 dismissals.

Second P.S. match

College, through Alasdair MacGillivray, fought back against Xavier, who at one stage were 3/81, to dismiss them for 109. MacGillivray had 2/38 and finished with 8/41.

College passed Xavier's total on the Friday. A solid opening partnership from Geoff Morrow and Dave Clarke set the pattern, scoring 75 and 38 respectively and enabled the College to score a reasonable 198.

Third P.S. match

At Brighton, College amassed its biggest score for the season, making 6 for 294. Geoff Morrow and Dave Clarke set the pattern, scoring 44 and 79 respectively, and featuring row and Hugh Torode was a feature. Dave in a first wicket partnership of 90 runs. Tim Johnstone (68 n.o.) and Alasdair MacGillivray (48) scored a sizzling partnership of 104 in 63 minutes. Chris. Sutherland and Trevor Williams also contributed to the total. MacGillivray once again bowled well, taking 7/104 off 28 overs.

Fourth P.S. match

In wet and overcast conditions College had Caulfield dismissed for 125, of which bowlers Dickson and MacGillivray each claimed four wickets. College was 2/32 at stumps after batting in dull light. Through the lone efforts of Dave Clarke (77) College managed to gain a first innings lead. Caulfield was dismissed again with the last wicket falling in the last over of the day. Torode and MacGillivray each took five wickets.

Fifth P.S. match

Heavy rain prevented play on Saturday and the match was abandoned. This was unfortunate for College as its Captain, Dave Clarke, remained 95 not out and looked set for his first A.P.S. century. He was only supported by Jeff. Mann and Bruce Martin during Friday's play.

26—THE PEGASUS,

Sixth P.S. match

After the long Easter break College played Carey. At that stage College was on top of the premiership ladder and was undefeated. Carey was second and needed to beat College outright to be premiers. Tight bowling and fielding by Carey limited College's score to 90 in the first innings with Hugh Torode top scoring with 35 runs in 2i hours. Carey batted very strongly and declared its innings closed 7/201. This left College to bat out the rest of Saturday afternoon to avoid an outright defeat. However, College were unequal to the task and when the Clarke-Morrow partnership was broken the College batsmen offered little resistance to the good bowling of Carey's Wolfe, Yallop and Chancellor. Carey thus were premiers and we offer them our congratulations.

1970 FIRST XI CRICKET PLAYERS

Clarke D. E. (Captain), MacGillivray A. S. (Vice-Captain), Anderson R. S., Dickson G. S. J., Johnstone J. A., Johnstone T. G., Mann J. R., Martin G. B., Morrow G. T. D., Sutherland C. S., Thompson A. P., Torode H. W., Williams T. G.

SECOND XI

Coach: A. A. Grainger, Esq.

Those who played were: Jones R. A. (Captain), Lumb G. R., Barnes R. D., McLean D. E., Cook J. A. R., Ford C. J., Russell N. A., Carroll I. H., Finlayson P. A., Mann J. D., Wade P. A., Pusztai A. F., Gibson R. P., Williams T. G., Martin G. B.

RESULTS:

G.C., 25 and 30, lost to W.C., 180.
G.C., 85, lost to X.C., 220.
G.C., 111, defeated B.G.S., 79.
G.C., 49 and 62, lost to C.G.S., 3/130.
G.C., 75, lost to Carey, 165.

UNDER 16A

Coach: Rev. E. C. McLean.

Those who played were: Sutherland H. D. (Captain), Williams T. H. (Vice-Captain), Bouchier D. S., Campbell P. O., Crockett P. W., Dennis E. R., Durnan D. N., Goldsworthy N. D., Martin G. B., Mountjoy G. H., Rolland C. J., Wood G. C.

RESULTS:

G.C., 98, lost to W.C., 112.
G.C., 7/98, lost to X.C., 7/136.
G.C., 97, defeated B.G.S., 90.
G.C., 93, lost to C.G.S., 108.
G.C., 65, defeated Carey, 61.

UNDER 16B

Coach: N. R. Patchett, Esq.

RESULTS:

G.C., 107, lost to W.C., *im*.
G.C., 78, lost to X.C., 118.
G.C., 179, defeated B.G.S., 46 and 4/19.

UNDER 15A

Coach: A. Mel. Scott, Esq.

Those who played were: Finlay J. S. (Captain), Mann J. R., Wishart J. L., McLean N. T., Mallett D. J., Crockett R. J., Daher I. D., Donnan P. J., Donnan J. D., Johnstone J. A., Oman W., Taylor R. S., Gibson J. D., Anthony M.

RESULTS:

G.C., 162, lost to W.C., 180.
G.C., 106, lost to X.C., 112.
G.C., 164, defeated B.G.S., 118.
G.C., 67 and 2/57, defeated C.G.S., 40 and 79.
G.C., 79, defeated Carey, 57.

UNDER 15B

Coach: A. Mel. Scott, Esq.

Those who played were: Simmonds G. N. D. (Captain), Walker R. D. (Vice-Captain), Barr L. D., Barley M. H., Herd F. O., Hooke M. H., Gibson J. D., Kearney N. A., Lawler P. G., McKenzie D. A., McKindlay L. J., Mountjoy M. L., Sloane R. H., Weaver E. S., Williams D. L.

RESULTS:

G.C., 3/156, defeated W.C.
 G.C., 120, lost to X.C., 196.
 G.C., 5/117, defeated Carey, 39 and 43.

UNDER 14A

Coach: M. Stock, Esq.

Those who played were: Clarke J. R. (Captain), Anderson J. B., Bullen A. J., Carmichael I. D., Carter A. J., Cooke A. J., Gallagher P. W. E., Hermiston A. E., Lewis N. J., Lucas J. A., McMurrich T. B., Stephen I. R. M., Williams M. N., Wood A. R.

RESULTS:

G.C., 137, defeated W.C. 100.
 G.C., 6/141, defeated X.C., 5/78.
 G.C., 115, lost to B.G.S., 5/158.
 G.C., 7/178, defeated C.G.S., 9/185.
 G.C., 3/138, defeated Carey, 8/137.

K. W. NICOLSON TROPHY

For the XI having the best performance for the season.

Won by the Under 14 XL

Coach: M. Stock, Esq. Captain: J. R. Clarke.

HOUSE CRICKET

OPEN

ROUND I

Morrison defeated Shannon:
 Morrison 97 (Dickson 20, Williams 4/28, Mountjoy 5/24).
 Shannon 75 (Williams 34, Dickson 6/40).
 McArthur defeated Warrinn:
 McArthur 7/107 (Clarke 57 ret., Durnan 4/32).
 Warrinn 34 (Clarke 9/15) and 4/123 (Dickson 31, Durnan 31).

ROUND II

Calvert defeated Morrison:
 Morrison 70 (Dickson 33, Sutherland 10/26) and 8/40 (Morrow 3/11).
 Calvert 3 (decl.)/84 (Thompson 27 n.o.).
 Mackie defeated Warrinn:
 Mackie 9/132 (Torode 45, Gibson 22 n.o., Durnan 5/38).
 Warrinn 49 (MacGillivray 22, Torode 4/29) and 1/101 (MacGillivray 51 n.o., Durnan 34).

ROUND III

Calvert defeated Shannon:
 Calvert 9/186 (Morrow 28, Sutherland 80, Williams 3/83).
 Shannon 91 (Williams 33, Barnes 27, Morrow 3/13, Sutherland 6/37).
 Mackie defeated McArthur:
 Mackie 6/179 (Martin 73, Campbell 25 ret.).
 McArthur 7/98 (Clarke 60, D. Sutherland 3/33).

ROUND IV

Warrinn drew with Shannon:
 Warrinn 4/83 (MacGillivray 32, Williams 2/29).
 Shannon 4/53 (Barnes 22 n.o., MacGillivray 2/26).
 Morrison drew with McArthur:
 Morrison 4/65 (McLean 21, Bouchier 18 n.o., Clarke 3/20).
 Rain washed out the first night of this Round.

ROUND V

Mackie defeated Calvert:
 Calvert 65 (Morrow 19, T. Williams 30, Torode 5/22, Dennis 4/9).
 Mackie 6/69 (Martin 20, Campbell 27 n.o., Morrow 2/4, Mann 2/30).

UNDER 15

ROUND I

Shannon defeated Morrison:
 Shannon 7/161 (Taylor 113).
 Morrison 73 (Cook 4/23).
 Mackie defeated Warrinn:
 Mackie 114 (Kearney 28, Johnstone 27, Hermiston 3/44).
 Warrinn 95 (Walker 30, Kearney 4/29).

ROUND II

McArthur defeated Morrison:
 McArthur 169 (Clarke 101).
 Morrison 70 (Oman 7/26).
 Mackie defeated Calvert:
 Mackie 4/133 (Johnstone 65).
 Calvert 99 (McLean 33, Johnstone 5/32, Kearney 4/49).

ROUND III

McArthur defeated Shannon:
 McArthur 138 (Wishart 56).
 Shannon 64 (Oman 8/24).
 Calvert defeated Warrinn:
 Calvert 160 (Mann 63, Hermiston 6/57).
 Warrinn 48 (Mann 5/21).

ROUND IV

Calvert defeated Shannon:
 Calvert 5/46 (Finlay 20).
 Shannon 26 (Finlay 4/6).
 Morrison drew with Warrinn.

ROUND V

McArthur defeated Mackie:
 McArthur 3/74 (Wishart 31, Sloane 2/19).
 Mackie 56 (Lewis 16, Wishart 4/30).

RESULTS — Under 15:

1. McArthur.
2. Mackie.
3. Calvert.
4. Shannon.
- = 5. Morrison.
- = 5. Warrinn.

FINAL POINTS FOR HOUSE COMPETITION:

- | | |
|-----------------------|-----|
| 1. Mackie | 33 |
| 2. Calvert | 26 |
| 3. McArthur | 22½ |
| 4. Morrison | 13½ |
| 5. Shannon | 6½ |
| 6. Warrinn | 3½ |

FOUR:

PREPARATORY SCHOOL

Each year brings with it that which is new — new boys, new classes, new members of staff and even new ideas. So there has been a freshness again in what we have seen happening this year as we complete fifty years as a Prep. School.

Numbers have remained at almost the same level as in previous years and amongst the newcomers were Godfrey Thoma from Nauru and Michael Soon from Penang. It seems that we are still famous overseas!

Mrs. R. George joined the staff at Campbell House and is happily ensconced there. Mrs. M. Torney is in the library assisted by Miss J. Honman. Mr. W. Jennings is a master in First Form and assists with art and craft.

We have received most interesting news from Mr. Kemp and Mr. McPherson both of whom are evidently finding their new experiences even more exciting than they had anticipated.

We welcomed Mr. Newnham back after his very busy overseas visit. It is taking time to learn of all that he was able to accomplish in such a brief time. A most pleasant staff evening gave an opportunity to hear and see a little more.

The lull in building operations will not last much longer. Considerable changes in the library are planned following approval from the Commonwealth Government. The library will become a resource centre more than ever before.

Arrangements for the Junior Schools' Association Bi-ennial Conference are gathering momentum as we prepare to act as hosts to schools from Australia and New Zealand.

Visitors to the Prep have given us great pleasure. Mr. R. J. Pengelly of King's School, Auckland, N.Z. told us of his school and its background. Sir Roy Fidge, an Old Boy, addressed us on behalf of Legacy for Anzac Day. Mr. Peter Webb, also an Old Boy, presented

36—THE PEGASUS,

Under 10, 25 metres Backstroke:

- 1, P. Strachan (P); 2, R. Millard (M); 3, R. Carr (M); 4, B. Adams (H). Time: 20 sec.

Grade 4 Cork Hunt:

- 1, B. McNaughton (M); 2, R. MacLeod (B); equal 3, C. Van Cooten (P), M. Nelson (M).

Under 10, 25 metres Breaststroke:

- 1, R. Millard (M); 2, N. Williams (P); 3, A. Whitton (B); 4, P. Strachan (P). Time 22.5 sec.

Open 50 metres Freestyle:

- 1, C. Anderson (H); 2, M. Bell (M); 3, D. Reddie (H); 4, G. Hamilton (M). Time: 33.9 sec.

Under 13, 50 metres Freestyle:

- 1, S. Barley (P); 2, S. Lade (P); 3, R. Pyle (H); 4, I. Hope-Johnstone (M). Time: 34.8 sec.

Under 12, 50 metres Freestyle:

- 1, P. Millard (M); 2, S. Scott (M); 3, R. Ford (H); 4, P. Anderson (H). Time: 35 sec. (Record).

Under 11, 50 metres Freestyle:

- 1, D. Millard (M); 2, P. Solomon (B); 3, R. Barley (P); 4, S. Adcock (H). Time: 41.5 sec.

Open 50 metres Backstroke:

- 1, C. Anderson (H); 2, D. Henderson (H); 3, M. Bell (M); 4, G. Hamilton (M). Time: 45.5 sec.

Under 13, 50 metres Backstroke:

- 1, S. Lade (P); 2, S. Barley (P); 3, I. Hope-Johnstone (M); 4, A. Holt (B). Time: 43.8 sec. (Record).

Under 12, 50 metres Backstroke:

- 1, P. Millard (M); 2, R. Ford (H); 3, P. Schofield (B); 4, P. Anderson (H). Time: 40.5 sec. (Record).

Under 11, 50 metres Backstroke:

- 1, D. Millard (M); 2, P. Solomon (B); 3, D. Rayner (B); 4, R. Barley (P). Time: 48.8 sec.

Open 50 metres Breaststroke:

- 1, M. Bell (M); 2, C. Anderson (H); 3, J. Bowman (M); 4, S. Chazan (H). Time: 49.1 sec.

Under 13, 50 metres Breaststroke:

- 1, S. Lade (P); 2, N. Wood (P); 3, G. Ingpen (B); 4, I. Hope-Johnstone (M). Time: 49.5 sec.

Under 12, 50 metres Breaststroke:

- 1, P. Millard (M); 2, R. Ford (H); 3, P. Schofield (B); 4, P. Anderson (H). Time: 44.7 sec. (Record).

Under 11, 50 metres Breaststroke:

- 1, D. Millard (M); 2, P. Solomon (B); 3, A. Whiteside (H); 4, R. Barley (P). Time: 53.8 sec.

Open 50 metres Butterfly:

- 1, C. Anderson (H); 2, P. Millard (M); 3, R. Ford (H); 4, P. Richardson (P). Time: 45.4 sec.

Diving:

- 1, C. Anderson (H); 2, P. Anderson (H); 3, I. Hope-Johnstone (M); 4, S. Lade (P).

Open 4 x 50 metres Relay:

- 1, Helicon; 2, Minerva; 3, Bellerophon. Time: 2 min. 35.6 sec. (Record).

Under 13, 4 x 50 metres Relay:

- 1, Pegasus; 2, Bellerophon; 3, Minerva. Time: 2 min. 40.9 sec. (Record).

Under 12, 4 x 50 metres Relay:

- 1, Minerva; 2, Helicon; 3, Bellerophon. Time: 2 min. 43.1 sec. (Record).

Open Medley Relay:

- 1, Helicon; 2, Pegasus; 3, Minerva. Time: 3 min. 25 sec.

Staff v. Boys:

- A Draw.

a lunch-hour concert. He delighted us with his oboe playing. Miss Shirley Jacobs, folk-singer, paid a return visit and again her songs and playing were fascinating.

Excursions have continued to be included in our programme as source material for class work. Visits have been made to Mr. Carroll's dairy farm, Polar Dairy, Montrose Cottage and the Mining Museum at Ballarat, Federal Woollen Mills and the Planetarium in Melbourne. One other most exciting excursion was the visit to De la Salle College in Melbourne by Grade 5/6B to act as a demonstration class for Mr. Whitton when he addressed the Modern Languages Association Congress. It is difficult to know what delighted the audience more, the boys' French or their singing! The boys found the reward for their labours made their effort well worthwhile.

An experiment in integrated studies was conducted by the first forms who spent a day by the sea. They did not succeed in turning back the waves but did hold the weather at bay! Mathematics, Art, Creative Writing abounded as a result of the venture.

Afternoon Sport has seen the addition of Outdoor Activities for the summer months. Indoor swimming has taken its place for the winter but in third term, the Outdoor Group hopes to continue to try to light a fire using a stick and a piece of wood. After this they will attempt to restore the Barwon to its original course.

By giving to Social Service the boys continued to display a real concern for others, all manner of methods being devised to call attention to the needs of others. The response to the Grace McKellar Appeal was particularly gratifying.

CRICKET

A very successful cricket season was completed with regular Saturday competition for teams at Forms 1 and 2 level.

Once again results were very good with very few defeats.

Best performances:— Form 2: J. Davidson, 103; A. Mahar, 69; S. Sinclair, 42; L. Walker,

4/14, 44; C. McKenzie, 5/10; R. Whittle, 5/12; T. Bartlett, 7/22; S. Thompson, 6/13. Form 1: R. Middleton, 37; D. Holt, 4/13, 6/26; G. McKenzie 9/20, 6/18, 4/5; R. Walpole, 4/12; W. Williams, 4/13.

A complete fixture list of House Matches have been played with Helicon and Minerva sharing the lead. Repeat fixtures will be played in third term.

SWIMMING

A large number of swimming proficiency certificates were again obtained this year. Regular instruction was provided for all boys each week at Kardinia and Eastern Beach pools.

Boys from the Prep, assisted substantially in retaining the Strahan Shield for Inter-School swimming in Geelong and District.

The House and Championship Sports were held at Kardinia Pool on March 18th with Minerva House winning the competition.

Championship Winners:

Open: 1, C. Anderson; 2, M. Bell.
 Under 13: 1, S. Lade; 2, S. Barley.
 Under 12: 1, P. Millard; 2, R. Ford.
 Under 11: 1, D. Millard; 2, P. Solomon.
 Under 10: 1, P. Strachan; 2, R. Millard.
 Under 9: 1, B. Adams; 2, G. Whitton.

Seven Records were broken:

Open Relay: Helicon, 2 min. 35.6 sec.
 Under 13 Relay: Pegasus, 2 min. 40.9 sec.
 Under 13, 50 metres Backstroke: S. Lade, 43.8 sec.
 Under 12 Relay: Minerva, 2 min. 43.1 sec.
 Under 12, 50 metres Freestyle: P. Millard, 35 sec.
 Under 12, 50 metres Backstroke: P. Millard, 40.5 sec.
 Under 12, 50 metres Breaststroke: P. Millard, 44.7 sec.

Results:

Under 10, 25 metres Freestyle:

1, P. Strachan (P); 2, A. Whitton (B); 3, R. Carr (M); 4, R. Millard (M). Time: 17.1 sec.

Under 9, 25 metres Freestyle:

1, B. Adams (H); 2, G. Whitton (B); 3, M. Nelson (M); 4, R. Lunn (M). Time: 18.8 sec.

Grade 3 Cork Hunt:

1, G. Whitton (B); 2, G. Pitcher (B); equal 3, R. Lunn (M), P. Humphries (M), J. Waterhouse (B).

FIVE:

THROUGH A GLASS DARKLY

WIND

Gusting,
it rustles the leaves;
moaning,
like an old man with arthritis;
roaring,
it sends waves through the grass;
howling,
it rattles windows;
it drones,
as a swarm of bees;
pouncing,
it sends hats flying;
blowing,
twisting,
twirling,
it makes mockery;
of man,
and his achievements.

L.H., IV

THE RIVER

The broad river
Winding through the hills
And valleys
Like a giant snake
Sunning itself
On a rock.
Sliding past factories
And homes of men,
Round the roads
That carry the
Carnivorous animals that
Devour rocks
To make cement.
The river travels past
Molten grass paddocks
To its destiny
And its brother,
The sea.

Mel Gray-Thompson, I

38 THE PEGASUS.

AUTUMN

WORDS: G. PLUMRIDGE, B.
 MUSIC: J. MACRAE, I.

The warmth of au - - - - - tumn, Dried-out brown and orange leaves, Crunch
 under my feet. - - - - -

SEA TREASURE

WORDS: A. WINTERS, S.
 MUSIC: D. WILLIAMSON, I.

See - if gleaming on the sea bed, Wow - Ah - - - - - Look. - - - - -
 See - if gleaming on the sea bed, Wow - Ah - - - - - Look. - - - - -

OUR WILLOW

WORDS: R. KELSO, S.
 MUSIC: H. KELSO, I.

It was a giant over-hanging the house, guarding it day and night. Not moving, except when the
 wind would come, then furious winds were his arms everywhere. But when the wind died down, the
 giant was tame, as tame as ever. Why did they cut him down, to just a pile of
 pile of sticks?

JUNE, 1970—39

STORMY DAY

Out of the calm quiet silence,
 Suddenly a wind springs,
 Billowing through the tree-tops,
 Raging over the waters.
 A scent in the air,
 A scent of rain,
 Squawking birds
 Cease their senseless chatter,
 People scurry like ants
 From the beach.

A blinding wall of sleet,
 Driven by the crazy squall,
 Harasses the maddened tourists.
 With lunch under one arm,
 And children under the other,
 They struggle up the endless sand-dunes.
 The crash of breakers,
 Reverberates off the cliff face.
 And far out at sea,
 A lonely ship steams
 To a land of golden sunshine.

Brad Kerger, IV

TRENCHES

At last I had finished the first trench and, as I stood back to survey my work, I felt pleased with the result. The ground was hard and although it had taken almost two hours to dig the small trench, I was not tired. Perhaps I was being over-cautious, perhaps not, I did not know. I worked at my second trench, turning occasionally to check the countryside for intruders, but fortunately there were none. Half-way through the second trench I stopped digging and carefully re-read the instructions I had pencilled out. Returning to my labours, I knew I was doing the right thing.

After completing the second trench, I sat on a nearby rock and ate some sandwiches I had had the foresight to bring. I had not realised up until now how ravenous I was. I ate greedily, washing down the not-so-fresh bread with gulps of cool, refreshing rum.

I lit a cigar and relaxed for ten minutes. It was ten o'clock. I had been working solidly for four hours. The actual digging was comparatively easy and by itself would not take long. It was clearing the ground of the infinite number of twigs and branches that took the time. All stumps and roots had to be cleared. It was a painstaking job, but it had to be done. Or did it? Maybe I was acting foolishly; I didn't think so. I hoped not.

The sun blazed brilliantly as I continued to dig. Mechanically I worked, stopping only to quench my undying thirst and to wipe the beads of sweat from my brow.

The third trench was completed as the midday sun burnt high in the sky. A quarter of a mile or so away I could hear a small river rustling over rapids. It was a perfect position, just what I wanted; and needed. I rested for half an hour before beginning the fourth and final trench. Time was important at this stage.

The ground seemed rather hard in the area of the final trench and the shrubbery exceptionally dense. At long last I had dug the fourth trench and cleared the ground so that it was spotless. Everything was perfect. It had taken me a long time, but now it was finished. At long last I had finished. I packed my shovel, pick and hoe away and took a last draught of rum.

I knew it was the right thing to do; it had to be. The rain would not swamp us this year as it had done before. I came back the next day to put up the tent for our holiday!

J.F., IV

ALLEY CAT

Sleek, smooth alley cat,
 Eyes peeled open,
 Not trusting anyone,
 Hated everywhere.

Frustrating, fiendish, feline, frenzy,
 Trash bins clang along the gutter,
 Milk cans roll and crash,
 Cautious, creeping, crawling, cat.

A. Mahar, II

40—THE PEGASUS,

SNAKE

Startled, I stepped back.

An abrupt black streak greased through
the wet grass with fantastic speed as though
sliding on dry ice.

I armed myself and fired, not self-protec-
tion, not offensive strategy, but for the joy
of power, the feeling of superiority.

Regret was useless.

M. Boyd, II

THE CRASH

"She's dead",
They said
As they dragged her from the wreck.
The steering wheel's wrapped 'round her,
And busted through her neck.
The doctor's seen the body,
They've pronounced her "Quite dead".
So now they'll put her down below,
And the earth worms can be fed.

"But wait!"
"She moves!"
Her eyelids, she did raise.
Satan's had a reject,
Let all the saints give praise.
Her body, it gets warmer,
Her limbs, they start to move,
She'll live to see another day,
Even though the doctor's boobed.

P. Griffiths, IV

THE SEA

The aged, wise but spritely old man
rolls lazily up to the shore,
and gently slips back at the end of his run.
Time is of no essence,
for his life is infinite.

In his proud, blue coat,
arid crown of snowy white,

he looks remarkably handsome
as he stands upon the sea-bed
and commands his snow-capped steeds.
He is the father of all sea creatures;
he is the father of marine life.

In the cool, darkness of the night,
when he sleeps peacefully,
amongst the soft, warm sea-weed,
his galloping stallions turn into young colts
which trot quietly up
and prance lightly upon the golden sand.

And when the dawn comes,
he reaches out his sinewy hand,
and draws back his white-capped tides of
water horses
for the start of a new day.
Nobody questions these strange, magical
manoeuvres,
for such is the way of King Neptune.

Craig McKenzie, II

THE BARWON

The river twists like a winding road,
Still,
Not a movement in the water.
The strange-shaped shadows of the trees
Darken the surface.
The colours like a tree trunk
Or a withered leaf.
Then the stillness is interrupted
By the flight of a butterfly.

C. Maltby, I

OUTBACK MOTEL

Couldn't have been locked . . . no keyhole.
He tried again . . . nothing happened.
On enquiry, the receptionist (who could
have passed as the bouncer) had replied,
"Kick the bottom left hand corner . . . hard."
By the look of the left hand corner he
wasn't the first to have this trouble. He kicked
the door (hard) and it swung wildly open,
but hit the door stop and slammed in his
face.

JUNE, 1970—41

However, having caught a glance of the room he was in no hurry to try again. Mastering the art of entry took two more tries.

Advertised as a "Honeymoon Suite", the room was fully six feet square and the floor was covered with lino which, according to the cook, was laid "just the other day". The room smelt remarkably fresh until it was discovered that there was no glass in the window. That was, he supposed, how the cat had got in. Sleeping so peacefully, it seemed a pity to disturb it.

He had to look hard to distinguish between the bed and the bench. Covered with a table cloth the bench looked as comfortable as the bed. The only other features in the room were the plumbing fittings.

The hand basin was half full of filthy water, saturated with drowned flies and mosquitos. Removing the plug he found out why. The water cascaded onto the floor and splashed over his new riding boots. "- - - -" he remarked.

As if waiting for the cue, the chamber maid walked in. Continuing more politely, he complained, "If the drip who put the bloody sink in had remembered to connect the pipe . . . (he had stopped because the tap had come away in his hand).

Exasperated, he gave up.

The chamber maid, who had a voice and figure like a weight lifter, took the tap and pushed it back into the wall and walked out, kicking the door with her gum-boots as she went. As the door slammed, a card fluted off the hook and landed by his feet. He picked it up. On it, were written the motel rules:—

The Royal Motel, Pimba—South Aust.

Rules must be 'beyed at awl times.

1. No birds in rooms after ours (cept birds rooms).
2. No runnin in hall.
3. No credit.
4. Park horses at back and clean up afterwards.

Thanks (prioter),
Gorge.

Stephen McD. Davey, VI

TRAIN OVERTURNING

The train skims along the track
 And slows to halt at stations.
 "Beware" the sound whispers,
 But the train flows on
 Through the blinding rain.
 It comes to a valley,
 Tall, thin and long;
 The train abandons its cage
 Overturning into its muddy grave.
 I could just hear the screams;
 The deafening sound reverberated
 continuously
 As its soul made its last gasp for life.
 Then
 Stillness . . .
 Silence . . .
 Death.

Ian Mitchelhill, I

CUBES OF METAL

Like angry lions the engines roar,
 Tyres squealing,
 Rubber burning,
 Clouds of exhaust coughing.
 Cubes of metal at their daily tasks.

Jock MacRae, I

STILL LIFE

A snake-like track
 Winding through a sea of grassland.
 The dead trees,
 The graceful motion of the water.
 They live in silence.

Ross Shaw, I

HAIKU

The rain beating down,
 Nourishing the brown scorch'd ground,
 Then the grass sprouting.

M. Witcombe, II

42—THE PEGASUS,

CATS

Big cats, small cats,
Fat cats and thin,
Yellow cats, black cats,
White cats, ginger cats,
Miaowing, purring,
Hissing, scratching,
Pouncing, jumping,
Wide awake, and sleeping!
Just the kind of animal
I like for a pet.

Mark McKeon, 4

BLINDNESS

My day an endless night,
The world around me
 A dense fog.
My life is walking down
An eternal tunnel.
The shutter never opens
In my human camera.
 I read with touch,
 I look with sound,
And never see the green of sky
And blue of grass.

Mark L. Bell, II

WAR DAWN

And with dawn
the matchless colours of God flood the sky
in all their brilliance,
but none,
none
Compare with the glories of the field.

JUNE, 1970-43

SIX:

FOOTPRINTS ON THE SAND

SPEECH DAY

SENIOR SCHOOL

Speech Day was held on Wednesday, 10th December. Dr. H. N. B. Wettenhall was in the chair, and the prizes were presented by Professor R. J. Goldman, M.A., Ph.D., Dean of the School of Education, La Trobe University, and D. G. Neilson, Esq., President of the Old Collegians' Association.

PRINCIPAL'S REPORT, 1969

Mr. Chairman, Professor Goldman, Mr. Neilson, Ladies and Gentlemen:

Today I present the 109th Annual Report of The Geelong College. For anyone from Europe

such as our guest of honour today, Professor Ronald Goldman, M.A., Ph.D., first Dean and Professor of Education at La Trobe University, who has lived most of his life surrounded by the ancient institutions of the United Kingdom, the fact that we are in our 109th year is perhaps not particularly impressive. For despite Australia's very great geological and zoological age, it is still, in its own peculiar adaptations of the social institutions it inherited from Europe, a very young and immature country.

Nevertheless, we here in this school are old enough, and Australia as a nation has developed far enough, for us to need to take a very careful look at ourselves, to examine our assumptions and present practices, before we plunge headlong into the next breathless leap forward towards the twenty-first century. We can no longer assume that what has been done elsewhere is necessarily the best for Australia, and indeed we have a unique opportunity before it is too late to learn from the mistakes of others.

It is not surprising that our political leaders in Canberra, whether it is the recently re-elected Government, or the newly revitalised Opposition, are finding it necessary to do some hard thinking about the future, because in

44—THE PEGASUS,

every part of our social life, and not least in education, the rate of change is increasing, and those who are unprepared will simply be swept along into unfamiliar surroundings by forces they do not understand, where their work will become totally uncreative and irrelevant.

Australia therefore is fortunate that La Trobe University was able to attract, as its first Dean and Professor of Education, a man of Professor Goldman's wisdom, experience and breadth of interest, at a time when so much new thinking and careful research in education is so necessary. May I add my welcome to that of the Chairman to Professor Goldman today, and wish him a very satisfying and successful time here in Australia?

This College, because it has had the good fortune to survive and prosper in such pleasant surroundings for so long, cannot assume that it is therefore immune from the need for this same examination of where it stands, this searching of its conscience, this gazing into the future, this careful planning of its own development to ensure not only its survival, but its proper contribution to the well-being of all Australians, and indeed of all mankind.

In this report, Mr. Chairman, I want to offer you some of my own concerns for our future, and to do this first by looking at the problems and needs which I see within our own boundaries, and then to turn to some of the wider questions facing education in Australia in the next few decades.

Firstly then, how do we here on this campus assess our present situation, and what must we do here in the next five or six years? It seemed to me that a good starting point for any such discussion might be to ask the most senior boys in the school, most of whom will be leaving school today, after anything up to fourteen years as members of this school community, what they would like to change if they suddenly found themselves in a position to do so.

Early this term each of them was asked to write me a page or so, setting out the two aspects of the school which they felt were most in need of reform. I have carefully examined their suggestions which, for the most part, have been made thoughtfully and seriously, on the basis of their own experience. This exercise, undertaken by about ninety boys, naturally raised a great many issues, but when I had analysed them, they seemed to me to fall under three main headings.

The first of these, I was pleased to note, was related to the further development of our academic facilities and standards. This demand has, of course, arisen partly because we have been a little unlucky this year in the continuity of our senior teaching. Mr. McNeill,

who had proved to be a very able senior Geography master, left us at the end of first term to take up an appointment in Brisbane; despite the very good notes which he left behind him and the admirable way in which Mr. Morgan took over his classes, an interruption of this sort in the middle of the year is always a little disconcerting. To make matters worse, there were also some interruptions in the senior History, Social Studies and Agricultural Science due to Mr. Barley's overseas leave, a short period of illness for Mr. Dunkley, and then the serious illness of Mr. Macmillan. Fortunately all three have been back with us this term, though Mr. Macmillan will only be able to undertake part-time work next year. I am glad to be able to report that I have already made good progress in arranging suitable appointments in Geography and a number of other subjects for next year. The Council has always recognised that a first-class staff is the primary requirement of a first-class school. A list of staff changes and a number of other interesting items of information are printed at the end of this report.

You will see from that list that in addition to those already mentioned, there are three other significant departures from the staff this year. From Campbell House, formerly known to many of you as the Kindergarten, Mrs. Wilson is transferring to the State Department after thirteen years of devoted service in assisting Mrs. Sweetman to set the youngest Collegians firmly on the educational ladder. From the Senior School, Mr. J. R. Hunter has decided to move with his family to Melbourne after twenty-three years in which he not only helped many boys to understand the complexities of such mysteries as Geography, but guided them successfully also in their games and house affairs. And Mr. Wardle is to move into the field of agricultural journalism after a total of thirteen years on the staff, during which he served with distinction at both the Preparatory and the Senior School. Such people are hard to replace, and we will be very conscious of their absence next year.

But the concern of the Sixth Form was not simply due to either the temporary misfortunes or the permanent changes which must occur from time to time in our staffing. Many of them feel the need for better study facilities in general, not because of any criticism of the quality of the staff which, in fact, they generally acknowledge to be high, but because they are beginning to recognise the importance of less formal teaching and more individual study opportunities, and because they realise that if this is to happen, they must have more adequate places in which to work.

I have already asked senior members of staff, particularly in humanity subjects, to explore the possibility of variations in our

JUNE, 1970-75

normal teaching arrangements to give boys in their Matriculation year rather more opportunities for learning to study on their own, with tutorial assistance, and rather less formal class teaching; and our building development plans already take account, in at least three ways, of the need for better study conditions.

In the first instance, we have been aware for some time of the need for considerably expanded library facilities. These may now become a practical possibility before very long through the assistance of the Commonwealth government; and very active planning is already under way. But in addition to this we hope to provide within the framework of the day-boys' common rooms, which are to be built under the Morrison Hall, some space where senior boys may study during the periods when they are not required in their classrooms. Moreover, one of the needs which will be taken into account in the planning of new boarding house facilities in the next five years is that of providing more small study room space for senior boarders than is possible in the existing boarding houses, even though these are now far better in this respect than they were five or six years ago. So I think it is fair to say that this is one development on which boys, staff and Council are all in agreement.

The second change which a considerable number of senior boys would like to see relates to the whole process of consultation and decision-making within the school community; and arises in part, no doubt, from the unwillingness of the present 'teenage' generation to accept without adequate explanation standards and requirements determined for them by adults in a position of authority over them, whether it be at home or at school. Because community attitudes and standards are changing so rapidly, and because many of the adults are themselves confused, and because teenagers are continually being urged by all the media of communication — books, magazines, newspapers, television, and so on — to think for themselves, it is becoming much more important than it seemed to be in previous generations to achieve desirable standards and attitudes by a process of consultation and discussion and reasonable explanation, rather than by a show of force. That is to say, acceptable behaviour must be the result of self-discipline rather than discipline imposed from without. Moreover, a school must be a forgiving and redemptive community rather than a training ground for unthinking obedience to a set of unexplained rules determined and imposed by adults.

This is not to suggest that boys or girls at this stage of their lives do not require a firm and clear framework of standards and attitudes against which they can compare their own natural inclinations. It is simply to suggest that this framework should be established much more by a process of consultation in which they themselves feel they have

had an opportunity to express their views, than by an assumption of omniscience and authoritarian right by the adult members of the community.

One of the signs of this questioning of the old pattern of authority is the continual resistance of boys to acceptance of the view that certain activities within the school, such as attendance at church services, or turning out to games, or belonging to the cadet unit, should be compulsory. They argue, with some justification, that activities such as these undertaken compulsorily lose a great deal of their value because to be effective they clearly require the willing participation of the people concerned; mere attendance does not necessarily imply participation.

I believe that all this means that we adults have got to go to more trouble to see that our point of view makes sense, and is adequately explained to the teenagers whom we expect to accept or at least respect our views. Of course any good schoolmaster has always recognised this fact to a large extent, and one of the virtues of a comparatively small school of this sort, and particularly of a boarding school, has been that there have always been many opportunities for members of staff and boys to discuss school affairs and to reach some mutual understanding of the issues involved. Moreover, consultation of this sort has been built into the structure of existing school committees such as the General Games Committee, the Library Committee, the Council of the House of Guilds, and various House committees.

I believe, nevertheless, that we must look into this matter further, and that it would be particularly valuable if we could develop our formal consultative activities, particularly within each House, and arrange that the results of such consultation could then be pooled in a School Advisory Committee of some sort. This is not to imply that we want to abandon the present structure of School and House prefects and other officers, but that we need to supplement these with something which will ensure serious discussions between staff and boys about issues of real importance to them both. Such arrangements will of course take time, and it will no doubt be some years before we have reached a satisfactory pattern of relationships, but it seems to me that this sort of thing is in line with the general changes which are taking place even within the academic programme, where there is less emphasis on authoritarian teaching and more emphasis on individual learning.

In regard to this matter of compulsion, we have already had a careful look at the arrangements for the school cadets, and have instituted a number of fairly radical changes for next year, of which many of you are no doubt already aware and, if not, shortly will be. In particular, these new arrangements mean that boys will normally enter the Cadet Unit in

their Third Form year and will have the option of withdrawing from Cadets during their Sixth Form year.

The third issue on which senior boys would like to see some change is in the whole area of their social life, and this not surprisingly was particularly emphasised by the boarders. Many adults throughout the community, and particularly parents of teenage children, share a growing concern at what appears to be a lowering of moral standards and an increasingly permissive attitude towards relationships between the sexes. Many look to the staff of their children's schools to provide some answer to their dilemmas, and indeed we here have spent much time in discussing what ought to be done. I find myself reaching the conclusion more and more that at least a part of the problem in our independent boarding school situation arises from the Anglo-Saxon tradition of segregating our teenagers in single-sex schools, and that such schools may soon prove to be an anachronism. It is for this reason that for many years now the College and Morongo have co-operated in a number of ways to try to provide some healthy, normal social life for the boys and girls concerned. Unfortunately, our efforts do not always prove very successful, and I believe this is at least partly because all the occasions for boys and girls to be together are, in a sense, artificial. What is really needed is that they should work and live together under normal everyday circumstances, rather than simply meeting in their spare time, or on specially organised social occasions. I would like to see, therefore, an even closer relationship between the two schools. It is interesting to notice that experiments of this sort have already begun in many other areas, and indeed Australia may prove to be suffering from a time lag in this regard as well as in many others.

Although these were the three main issues raised by the Sixth Formers, there are several others which will also be carefully considered. For example, some wanted even better sporting facilities. My only comment here is that there will certainly be some improvements in this regard next year. I have already appointed an additional Physical Education master, Mr. Peter Cronk, an Old Collegian who completed his Diploma of Physical Education at Melbourne University soon after he left the College. This additional appointment should make it possible to make the best use of the new Rolland Centre with its gymnastic and weight-lifting equipment, and such other new facilities as the new high-jump area which we can add for specific purposes from time to time.

These rapidly changing patterns of needs and attitudes in the whole structure of the social and educational life of Australia make heavy demands upon the professional educa-

tors, whether teachers, researchers or administrators. The competition for the best available staff, and the pressure to provide for such staff adequate scope in time and facilities to exercise to the full their creative imaginations, and capacity for innovation, mean that recurrent costs in all fields of education are increasing by about 10% per annum. Unlike the general cost of living increase of about 3% per annum, which seems to be accepted as a normal feature of the Australian economy, and which simply leaves us no better off than we were before, the rise in the cost of education is a reflection of the demand from all sections of the community for a better education: and there is no doubt that the children of today are in general already gaining a much better education than did past generations. But further improvement is a vital need of our increasingly industrialised, urbanised and technological way of life. And this means that we must provide opportunities for teachers to be more fully trained, to attend refresher courses, to take overseas leave, to be more mobile in their employment opportunities, to have time for planning and consultation, to be assisted by specialist services either within schools or regions or states. All this costs money. Indeed when the College Council recently worked out in detail the budget for next year, it became apparent that an increase in fees of about 10% would have been necessary, if we had had no other source of income.

Fortunately in 1970 we will gain some of our income from Government per capita grants, from both State and Commonwealth. The Council has decided that the State grants should be used for minor capital works, that is for the improvement of our working facilities, and that the Commonwealth grants should be used towards staff salaries. Because these needs do not now have to be met entirely from fee income, it has been possible to reduce the necessary fee increase to only about 3%, in line with the general cost of living increase, and at the same time to put aside a significant sum to augment our Bursary Fund to assist parents who would not otherwise be able to meet the fees. It is perhaps worth pointing out again for the benefit of some of our critics that the College already distributes about \$50,000 a year in scholarships, rebates and bursaries, and that this sum will now be further increased.

In order to make it quite clear that this comparatively small fee increase has only been possible because of the Government grants, and since these grants could at some future date be withdrawn, or could become subject to unacceptable conditions, and in any case are unlikely to be increased for 1971 by a comparable amount, the Council has decided to print in our fee schedule two figures, one showing the fees necessary without grants, and the other showing the fees actually payable next year.

We are grateful for this recognition by all Governments of our contribution to education, and also for the continued support from the Commonwealth Government of building programmes in all types of schools to improve science and library facilities. But such capital grants, of course, provide only a fraction of our capital needs. Most of you will have seen during the year the statement we sent out describing the manner in which we had raised and spent on buildings during the last decade not less than \$750,000. And our analysis of our needs for the next ten years comes out at much the same figure. Because of this, the Council made the decision during the year that we must launch another Development Appeal for capital funds early next year. Much planning has already been done, and you will all soon receive an invitation to the Opening Dinner, which will be held on the evening of Friday, 27th February. I would like to make it clear to Old Collegians who have so willingly and generously supported the Annual Giving Programme, which made possible the commencement of the Holland Centre, that this new Appeal does not in any way imply that the Annual Giving Programme has failed or needs to be abandoned, but is simply a recognition of the magnitude of the task that faces us, and of the need to be assured by the whole College family that we will have adequate support in the next five years to keep the College in the forefront of Australian schools. Already we have been promised some substantial gifts, which would not have come to us through the Annual Giving Programme. A list of benefactions received this year is attached to the printed copy of this report.

Now let me turn for a moment to some of the important educational developments outside this school, for I believe that if we at this College are to continue to play a significant part in the education of Australians, and are to justify all the money and effort which this involves, we must have a wide vision, and a full awareness of the awakening interest of the Australian community in all aspects of education. We cannot afford to be self-satisfied or parochial or inward looking. It is for this reason that I have welcomed the opportunity given me by the Council to visit schools in other States and attend several important conferences this year. In May I looked at schools in Perth and Adelaide, and attended a Conference of the Australian College of Education on Examining Techniques. In August, I was one of the representatives of the La Trobe University Council at a Conference on "Planning in Higher Education" at Armidale, and later attended the biennial Conference of the Headmasters of Independent Grammar Schools of Australia at Canberra Grammar School. These experiences served to reinforce the impressions I had already gained from developments within Victoria that the time has come for a great deal of new thinking and planning towards Australia's future educational development.

And this means that adequate machinery for such planning must be set up.

Perhaps the most significant recent development has been the general recognition that, however firmly our Australian Constitution places the administration of education in the hands of State Governments, our planning must be co-ordinated at a national level. This has already been achieved to a large degree at the tertiary level, first as a necessary corollary of the substantial expansion of universities, and now through the similar growth in the Colleges of Advanced Education. Because the Commonwealth is providing a large proportion of the funds required, it has set up a complex and detailed system of controls. Unfortunately this arrangement has now led to a situation in which all the drawbacks of centralisation and bureaucracy are becoming apparent, lack of flexibility, delays, frustration, and the discouragement of experiment and innovation.

This seems to suggest that central national planning of broad policy should be accompanied by greater decentralisation of administration, greater autonomy within institutions, and indeed a growth of the sort of independence which we here enjoy. Perhaps there is a lesson to be learnt from the stability and success of the Independent Schools.

Now the Commonwealth is quite rightly beginning to accept some responsibility at the primary and secondary levels, and it is of the utmost importance that the balance between central planning, and local initiative be maintained. Here again the independent schools may have some insights to offer. We in the independent sector have already decided that we must, without interfering with the autonomy of individual schools, improve our own national consultation and planning. To this end, we are not only trying to maintain the effective work which has been done for many years by the Headmasters' Conference and the Headmistresses' Association, but to build up a National Council of Independent Schools, which can speak for all such schools throughout Australia, and can include both Heads of schools and representatives of their Governing Bodies.

One of the first tasks of this National Council, which has its first meeting in March next year, will be to co-ordinate a review of the needs of independent schools throughout Australia, as part of the general Survey of Needs being undertaken by the Australian Education Council through each State Department. The Federal Government made a number of references to this survey, as its alternative to the Schools' Commission proposed by the Federal Opposition. I hope it will open the way to urgent and decisive action by the Commonwealth in the primary and secondary field, for the Independent Schools fully recognise the urgent need for more Commonwealth Aid to Government Schools.

Part of this action must be in teacher training, and we in the Independent Schools are just as concerned about this as are the State Departments. It is time Australia had Teachers' Colleges, or Liberal Arts Colleges, financed from Government funds, which are independent of the State employing authorities, because only in this way can we give such colleges the opportunity to experiment and research and innovate, free of the continual pressure simply to turn out more and more teachers who fit into the pre-conceived pattern of each Education Department's school system.

One of the most valuable contributions which the Commonwealth can make to education is in the stimulation of educational research. There are so many educational issues about which we have so little information that we cannot really plan for the future even if we want to. Research must come first, and it is doubly urgent because any sociological research is a very slow process. It often takes years to determine the outcome of an experiment. It may interest you to know that the research officer of the Victorian Universities and Schools Examination Board, who has provided much vital information about our changing pattern of examinations, was only appointed because the Independent Schools offered to pay his salary during the first three years of his appointment.

One item of research which could profitably be taken up by the Commonwealth is the determination of a reasonable estimate of the cost of educating one Australian child through the primary and secondary stages. It has been claimed in various documents that it costs the Government \$339 per annum for each secondary student in Victoria. This figure takes no account of capital costs, and whether it really covers all the other costs, including such matters as teacher training, central administration, staff superannuation, and so on, I do not know. But whatever it covers, it is clear to most educators that much more needs to be spent. But how much more? We find here that we need about \$800 per secondary day-boy per annum to provide an adequate education. What is the right answer and how much of this right answer can the Australian economy afford? It seems reasonable that Governments should work out these sums on the basis of the best available research information, and then agree that at least this minimum should be the birthright of every Australian child.

It seems to me that the various issues about 'State Aid' which have been raised during the recent political campaigns are important, and need to be carefully resolved in such a way that they are removed from the fore-front of political debate. After all there is already a large measure of agreement by the majority of Australians that we should be spending more

on education. It is now simply a matter of determining the most appropriate way of distributing the necessary funds so that we ensure both social justice and a well-educated community. I do not believe that any political party, nor anyone else for that matter, has yet found the right answer, so that wide consultation and investigation is still needed, rather than the uninformed activity of "pressure" groups. As suggested above, my own inclination would be towards the determination of a basic minimum cost for the education of every Australian child, paid by Governments to any recognised, efficient, educational institution, whether conducted by the State or independently, with additional Government grants in areas of special need; for example, for deprived, migrant or handicapped children and for special experimental work, leaving parents entirely free to choose their children's school, and, if they wish, to pay additional fees for facilities beyond the minimum, as you do here.

Much that I have written in this report, Mr. Chairman, may seem remote from the immediate problems and needs and attitudes of any one of the particular boys who have had to listen to this report. And indeed we must guard against such pre-occupation with broad issues that we forget that education is really concerned with the growth of people as individuals and their inter-personal relationships. Anyone who works successfully in a school such as this knows that he is dealing not with a group of identical units called students, but with a community of unique individuals, each with his own particular personality, talents and weaknesses; and he must have a sensitive conscience which continually reminds him that one foolish word or one sin of omission may make a permanent impression on the personality of one of the boys in his charge.

But it is just because of this heavy load of responsibility which teachers and educational administrators carry that they must concern themselves so much with the environment which makes their work possible and effective. This is a Christian school, and all who have any part in it must always bear about with them the awareness of Christ's words "Inasmuch as ye have done it unto one of the least of these my brethren, ye have done it unto me".

P. N. Thwaites, M.A.(Oxon.), B.Ed., M.A.C.E.

STATISTICS

Enrolments:	1968	1969
Preparatory School:		
Day-boys	256	252
Boarders	85	77
	341	329

Senior School:

Day-boys	217	233
Boarders	175	191

Commonwealth Secondary Scholarship	20	14
University College Scholarship	—	5
Matriculation Exhibition	1	3

BENEFACTIONS, 1969

Old Collegians Annual Giving Programme	\$21,538
Morrison Hall Appeal	9,295
Estate of W. D. Adams	400
Estate of A. K. H. Thompson	200
Relatives of K. M. E. Davidson	600
Bell Charitable Trust	600

It has also been learnt that the College will ultimately benefit from the estate of the late J. G. Steele by receiving three-fifths of the residuary estate.

SPORT

Senior School teams competed regularly as follows:

Cricket	— 45 inter-school matches
Rowing	— 8 crews boated
Swimming	— 6 inter-school meetings
Tennis	— 24 inter-school matches
Football	— 102 inter-school matches
Baseball	— 16 matches
Hockey	— 13 matches
Cross-country	
Running	— 7 inter-school meetings
Athletics	— 2 inter-school meetings

In addition, inter-house competition took place in cricket, rowing, swimming, tennis, football, cross-country running, and athletics.

MUSIC

Number of boys learning instruments—277 (including Preparatory School)	
Military Band	— 32
School Choir	— 28
Pipe Band	— 19
String Orchestra	— 12

SCHOOL PRIZE LISTS

McArthur House

House Captain: J. D. S. Nail

PREPARATORY SCHOOL

HEADMASTER'S REPORT

Principal, distinguished guests, members of staff, boys of the school, ladies and gentlemen:

It is with a great deal of pleasure that I welcome you here today. In particular I most cordially welcome our Guests of Honour, Mr. F. S. McArthur and Mr. W. D. Nelson, both Old Boys of the Preparatory School.

Today marks the completion of the first decade at this new site. As I present the forty-ninth report of the junior school I am inclined to comment briefly along two lines. Firstly, 1969 has been memorable for that day in July when the first steps were taken by man on the moon. This school, like most other schools, had its eyes glued to a television set watching and listening to all that took place thousands of miles away. Most of us were spellbound by the faultless precision of men and equipment as the project went steadily to schedule. The detailed planning and technical brilliance behind the whole operation gave us a sense of awe. We enjoyed a new excitement as we shouldered our own humble responsibilities in a world of such tremendous possibility. Even as we listened to astronaut Neil Armstrong quoting from the Scriptures, "When I consider thy heavens the work of thy fingers the moon and the stars which thou hast ordained, what is man that thou art mindful of him and the son of man that thou visitest him?", most of us saw a glimpse at least of man's great potential when working in harmony with creation. The three astronauts were chosen men of fine physique, expert in their field of activity, well trained and disciplined yet possessing humour and humility, imagination and spirit. As we entered with them into their great adventure through the medium of television and satellite we identified ourselves with man at the peak of high endeavour. We felt elated. Life was brimfull with exciting possibility. This is the spirit of enthusiasm and high adventure that has characterised the best in all of this year's schooling.

The most obvious development at the Prep, this year has been the establishment of Campbell House in its new location at the south east entrance to the school. The re-siting here of these buildings has made it possible for the youngest Collegians to be active on our playing fields under the guidance of Mr. Hatton, to enjoy music under the direction of Mr. Newnham and Mr. Kendall and participate in art activity with Mr. Rachinger. Naturally, it has been a very busy year of settling in for Mrs. Sweetman, Mrs. Wilson and Miss Todd. Because of the smaller numbers of boys joining the school at the sub-primary and lower primary level it has been possible for Grade 3 boys to occupy a spacious classroom at Campbell House for most of the working day. Next year Grade 3 will have its own assembly and full working day under the direction of Mrs. Sweetman and Miss Todd at Campbell House. We anticipate more involvement of the other staff members in the Campbell House area and a greater use of the Prep, facilities with much benefit to all concerned. As I commend Mrs. Sweetman and her staff on the splendid standard of work maintained throughout another very busy year may I remind you all that Campbell House honours the great leadership of Mr. L. J. Campbell, our late headmaster, who gave his life in the service of this school. During the past thirteen years Mrs. Wilson has given outstanding assistance to Mrs. Sweetman and it is with a sense of sadness that we say farewell to her today. However, we assure her that our deep appreciation and very best wishes go with her into her new field of service. Already Mrs. George has been appointed to the staff and we are confident that the first important years for our youngest Collegians will continue to be happy and profitable years under her guidance. Here may I express thanks to the President, Mrs. Backwell, and the ladies of the Campbell House Auxiliary for their kindly interest and strong support. They have arranged treats for the boys at Easter time, on Sports Day and the Christmas Party of yesterday. We also warmly thank them for the gift of a table and garden seats which add to the outdoor facilities of Campbell House.

Physical Education has again been soundly applied throughout the year under the direction of Mr. E. B. Davies, Director of Physical Education, ably assisted by Mr. Hatton and Mr. Woods. With the full time appointment of a second Physical Education specialist to the College a new emphasis is to be placed, from the beginning of next year, on physical education beginning with the youngest boys of Campbell House and continuing to the most senior boys of Senior School. This will include the keeping of records for every boy, periods of remedial work for boys with pos-

tural defects and other medical disabilities, and the development of other physical activities for boys not suited to ball games. This active programme will keep pace, no doubt, with the progress being made with the building of the Sir Francis Rolland Memorial Physical Education Centre at the Senior School. Already the junior boys are eagerly looking forward to the advent of an indoor heated swimming pool at the main College campus.

Outdoor activities, including a wide range of sporting events, continue to augment and enrich the physical education programme. We were very pleased to welcome Mr. and Mrs. L. G. Hatton back home after two valuable years of teaching experience in England. Mr. Hatton, as Sportsmaster, has arranged and carried through a particularly busy and successful sports programme with excellent support from all members of staff. The emphasis on swimming is still on life saving and the gaining of further certificates; in athletics it is on self competition and the passing of more standards. With tennis, cricket, hockey, football, baseball and basketball the emphasis is on involvement for every boy, the inculcation of team spirit and enjoyment of games as well as coaching in basic techniques. The school is singularly fortunate in having a number of first class coaches really interested in their boys and effective in their work. A further activity, namely rowing, for second form boys during the final five Saturdays of the school year, has been arranged through the keen interest of another young 'Old Prep, boy', Gary Roydhouse. We thank him for his detailed arrangements and the good success of this venture.

Mr. B. F. Kemp, in his inimitable way, has carried all before him again with his hockey teams as well as organising the swimming programme for this year. He has also managed, with the help of Mr. Cameron and Mr. Longley, to carry forward a comprehensive programme of adventuring, boating on the river, camping, hiking, rock-climbing and attendant thrills. Next year we are going to follow with interest his experiences in Japan where he will be teaching English to business executives (using language laboratory equipment) and in his spare time exploring the country and following up his great interest in art forms, especially pottery. Today we say "au revoir" to him and to his wife and family, wishing them a most enjoyable year in Japan and a safe return to our school in 1971. During Mr. Kemp's absence, Mr. Cook has agreed to become Housemaster of Bellerophon House.

Rolland House has maintained its fine standards of friendliness, courtesy and efficiency. We congratulate the Housemaster, Matron and resident staff on an excellent year. I

know they would like me to express their appreciation to the domestic staff, the medical staff, the cleaning staff and the ground staff for the care and interest and courtesy given. We have also appreciated those parents who have kindly invited boys to their homes and in particular we refer to the interest and friendship given to our three Nauruan boys. The time spent at the Prep, by David Aingimea, Lionel Fritz and Rusden Tamakin has been quite a testing time for them but they have acquitted themselves very well indeed—as have the other five boarders from overseas. Next year we are going to miss Mr. C. L. McPherson, who has accepted an appointment at Launceston Grammar School for twelve months. After six busy years in Rolland House a change of scenery will be of great benefit to him. This year he organised two successful excursions into the 'wilds' of New South Wales and we are indebted to Mr. Henderson of Deniliquin and Mr. Waugh of Ivanhoe for their kind hospitality. One of Mr. McPherson's interests has been the installation and management of a Coca-Cola unit at the Prep. The profits from this project have provided a splendid display unit located outside the Guildhall to house special displays. Our warm thanks are expressed to Mr. McPherson for this addition.

Last year I commented on the excellent work being undertaken by our science classes. This has been well maintained as has been the work in art and craft and the associated activity of the Guildhall. Music has again held its important place in our school curriculum. Mr. Newnham has thoroughly enjoyed his year in America, England and in France, while Mr. Kendall has conscientiously carried out his duties as music master. Those parents who were able to be present at the House Music Competition were no doubt amazed, as I was, at the creative ability of the boys who wrote their own compositions, music and words for the choral numbers, as well as the full score for the orchestral numbers. The adjudicator, Mr. Gilfedder, from the Geelong Teachers' College, explained some of the finer points of the two outstanding compositions and expressed his opinion that in no other school in Australia would be found such opportunity and achievement in creating music as he had encountered here. Both Nigel Brand and Stuart Crosby have been outstanding in this field.

The language laboratory work has improved greatly during this year under the guidance of our specialist, Mr. D. J. Whitton. The boys going on to Senior School have successfully completed much more advanced assignments than in the previous two years. Having the room, the equipment, the syllabus and all the instruction in the hands of one person

of Mr. Whitton's ability has been of inestimable value. Much interest in this audio-lingual approach has come from other schools and the pilot course used in the primary forms has been very successful. Next year we are introducing this language work into all the primary classes beginning at fourth grade level. Apart from the fact that the introduction of a first foreign language at lower primary level is fully indicated by the increasing amount of competent research being done in this field, there are two main reasons for the decision taken at the Preparatory School. The first is that it gives the pupil greater awareness of a culture cognate with his own. Additionally, it is hoped that by the middle 1970's, Leaving and Matriculation candidates at the College will be competent to use the French language as a vehicle for communication and less inclined to regard the acquisition of its grammatical rules as an end in itself.

Although the stand of achievement in our senior forms depends a great deal on the competency and enthusiasm of the subject specialists I am firmly convinced that the solid base of our educational programme depends upon the effectiveness of the form teachers. We are well served in this field and I most gratefully acknowledge my indebtedness to the Director of Studies, Mr. N. N. Rachinger, and his team of dedicated form teachers for all that has been accomplished within the form rooms. Recently we had a Headmaster stay with us for a week to have a close look at our organisation and teaching methods and he was most impressed with the atmosphere of friendly co-operation that exists between the staff and boys. Whether they are subject specialists or form teachers, the staff members depend a great deal on a well stocked, well organised library. This is indeed a focal point of an effective school and we are most fortunate in the library development. We especially thank both Mrs. Dixon and Mrs. Jackson for all that they have done for us during this year. Next year we intend linking Room L by an interior door to the Helen Mackie Library and using the extra room as a resource area, a work area and a "teaching aids" room.

When I began this report I referred to the excitement of living in a world alive with technological achievements. My second brief reference is to the danger of allowing slack behaviour and sloppy habits to infiltrate our schools from the outside permissive society. Today we say goodbye to the one hundred and five boys of Second Form who graduate from this school. Some of them have been with us for eight or nine years and we have watched their development with great interest and admiration. We will miss them very much. We say an affectionate 'Veil done' to

them. They have produced some fine leaders, excellent results in a variety of activities, good fellowship and quite a sound outcrop of good citizenship. However, we are conscious that the television set and mass media with its great spate of crime and violence and sex is giving our young a biased picture of a cruel and unlovely world. Get what you can, please yourself, be sloppy in dress, in speech, in manners, care for no-one's comfort but your own . . . this comes through loud and clear. There is much we can do within the school to check these trends, and one of the chief measures is to recognise them and speak to parents as well as to teachers and boys about them. There is a tendency to question authority which is of itself quite healthy, but if misunderstood and mishandled, is liable to quickly degenerate into disrespect for people and for property. Surely it must challenge every one of us to show more clearly and consistently than ever before standards of beauty in word and thought and deed; standards of honesty and truthfulness and integrity; standards of humility and of kindness. Surely this world is not a jungle of violence and hate and passion, but is alive with dignity and beauty and truth. Surely the greatest task we teachers share is the task of opening the eyes of the young to the discovery that this world is alive with the power and the presence of a living God. Parents as well as members of staff must be prepared to discuss all manner of topics with the growing boy and advise him on problems that until now have been kept from his too early attention. They must show positively in their own lives the graces they would have him attain. It was partly such preoccupation that led me to invite Mr. W. D. Nelson to assist us here today. As a young Old Collegian in the midst of challenge on a busy University campus he has been able to walk the pathway of wisdom. Warrick Nelson attended the College from 1959 to 1965 when he was a House Prefect in Shannon House and gained his matriculation in six subjects with honours in biology. He has completed four years at Monash University studying for his Bachelor of Jurisprudence and Bachelor of Laws. Perhaps you have already seen him on television with the Vice-Chancellor of Monash University, Dr. Matheson, discussing student matters at Monash. As the Chairman of the Monash Association of Students he has brought credit to himself, his home and his school by his sound judgment and leadership. We congratulate him on what he has so far accomplished and we wish him continuing success in the coming days. It gives me added personal pleasure to share his company today, for his father, Flight Lieutenant E. M. Nelson, D.F.C., was a close friend of mine in air force days. He distinguished himself flying with Bomber Command before being shot down over occupied

territory and spending many months in the notorious prisoner of war camp, Stalag-Luft III.

Before I complete this year's report perhaps I should mention that we have had an unusual amount of illness, accident and bereavement affecting College homes this year. In all such times of testing we have gained strength and encouragement from our Chaplain. The four day Housemasters, Mr. Kemp, Mr. Millard, Mr. Van Cooten and Mr. Woods have also effectively shared in the pastoral care of our boys while the Women's Auxiliary, under the fine leadership of its President, Mrs. H. L. Williams, has carried through a very interesting year of activity. The boys have once more contributed more than \$600 towards their Social Service projects and the Open Day in August was as pleasant and as profitable as usual. Grounds development, including the re-surfacing of our roadway, has gone steadily ahead. Today we say goodbye to Mr. Geoff West, who retires after twenty years of loyal service to the College.

The weekly visits from the Senior School of the Principal greatly contributes to the effectiveness of our Junior School. We are delighted that Mr. Thwaites has been honoured by the headmasters of Australia in his appointment as Chairman of the Headmasters' Conference. In recent years he has made arrangements for me to attend, each term, a committee meeting of The Geelong College Council to report in person on matters concerning the Preparatory School. On the College Council I have found no-one more interested in the progress of the school than Mr. F. S. McArthur.

Mr. F. S. McArthur, M.A. (Cantab.), is the eldest son of the late Sir Gordon McArthur who was President of the Legislative Council 1958-65 and a member of The Geelong College Council 1945-65. Stewart McArthur was the first Prep. boy to be awarded the James and Dolina Arbuckle Prize for all-round ability and leadership. He went on (to stroke the College crew to Head of the River victory in 1955 and again in 1956. He was a school prefect in 1955 and Captain of the School in 1956. He also won the Junior Leader Prize as a Cadet Under Officer in the Cadet Corps and played good football as centre half-forward in the First XVIII. Stewart went on from here to Cambridge where he completed his Master of Arts degree and again distinguished himself at rowing. In 1965 he became a member of The Geelong College Council and it is with great pleasure that we invite him to address the boys and present the school prizes.

And now may I wish each boy, each member of staff, parents and friends and distinguished guests, a very happy Christmas.

PRIZE LISTS

ACADEMIC-

PRIMARY

Third Form:

Dux: P. R. Pickering
("The Eric Burford Carr Memorial Prize")
2: T. D. G. Neilson
3: R. D. Hurley

Fourth Form :

Dux: M. C. Thorne
2: A. J. Egan
3: A. J. Payne

Fifth Form :

Dux: A. F. Camp
2: J. MacLeod
3: R. G. Van Cooten

Sixth Form— 6D:

Dux: J. B. Richardson
2: P. V. Millard
3: S. W. Rosson

Sixth Form — 6E :

Dux: W. M. Williams
2: D. A. Williamson
3: J. K. Henshaw

SECONDARY—

First Form — IF:

Dux: R. J. Anderson
2: P. W. Richardson
3: J. B. Wardle

First Form — IG:

Dux: J. C. McKenzie
2: A. W. Holt
3: M. E. Pavia

First Form — II:

Dux: S. P. Lade
2: R. N. Jolly
3: A. D. Thorn

Second Form — 2H:

Dux: T. J. Mullins
2: W. J. Forbes
3: J. E. Tansley

Second Form — 2 J':

Dux: J. D. Gibson
2: A. E. Hermiston
3: T. H. Silcock

Second Form — 2K:

Dux: D. J. Lawrence
2: J. A. Johnstone
3: N. I. A. G. Brand

Second Form — 2L:

=Dux: D. A. J. Steel
=Dux: A. R. Wood
3: T. B. McMurrich

JUNE, 1970—57

Music Prize:

N. I. A. G. Brand

60—THE PEGASUS,

Wood, T. G. B.: B, Social Studies.
 Woodburn, J. F.: A, Physics; B, Chemistry.
 Young, P. C: B, Geography.

The following passed the Matriculation Examination:—

In Six subjects:

Lamb C. M.

In Five Subjects:

Andrews C. T.	Hiscock I. R.
Bourchier G. W.	Hobbs R. J.
Brown T. R. J.	Hunt R. S.
Chettle G. T.	Jaques S. R.
Chung H. C.	Jeremiah R. J.
Collins J. H.	McDonald J. Mel.
David M. L.	Macgugan J. A.
Donald G. M.	McLean L. R.
Dooly L. McD.	Wall J. D. S.
Ellis D. W.	Payne A. W.
Embling D. J.	Revie I. C.
Fagg B. G.	Richards C. R.
Fenner R. S.	Robson L. C.
Forsyth R. J.	Russell P. J.
Fraser S. W.	Seward H. G.
Gibson R. J.	Silke D. I.
Graves K. L.	Stone J. R.
Greenhill H. B.	Walters S. B.
Henshaw P. B.	Woodburn J. F.
Hill P. R.	

In Four Subjects:

Chatham T. R.	Meredith J. R.
Chisholm G. L.	Moore R. W.
Clarke D. E.	Ooi D. R. T. S.
(Plus Compensation)	Power J. R.
Davey S. McD.	(Plus Compensation)
Dennis T. R.	Power T. R.
Duggan K. J.	Slattery J. M.
Faulkner J. A. B.	Waters W. A.
Holdenson A. J.	(Plus Compensation)
Ingpen R. V.	Wettenhall A. R. L.
Law K. C.	

In Three Subjects:

(By Compensation)	Davies P. R.
Andersen S.	Macpherson I. A.
Craig B. M.	Watson A. A.

The following passed in one or more Matriculation Subjects:—

In Four Subjects:

Meredith J. R.	Moore R. W.
----------------	-------------

In Three Subjects:

Borthwick K. A.	Hewitt A. M. R.
Cameron A. A.	Young P. C.

In Two Subjects:

Bennett I. L.	Webster P. A.
Collins C. N.	Weddell J. S.
Urquart A. C.	Woodburn T. J.

In One Subject:

Anderson D. R.	McLean P. N.
Lindquist D. K.	Scott D. W.

The following passed the Matriculation Examination in 1968, and passed in 1969:

In Six Subjects:

Russell P. J.

In Five Subjects:

Retts M. J.	McAdam G. A.
Fairbairn D. G.	Nail J. D. S.
Grainger C.	

In Four Subjects:

Harding G. M.

LEAVING

The following passed the Leaving Examination internally:—

In Eight Subjects:

*Wood G. C.

In Seven Subjects:

*Anderson R. S.	*McKeon P. S.
*Champness P. L.	*McLean D. E.
*Deans P. J.	*Mann J. D.
*Dickson P. J.	*Runia D. J.
*Dunoon D. C. N.	*Russell N. A.
*Hurley I. L.	*Sutherland C. S.
*Johnstone T. G.	*Szaday C. S. B.
*Longton T. A.	*Todd H. G.
*McBride G. A.	*Torode H. W.
*McKenzie D. A.	

In Six Subjects:

*Barnett E. A.	*Hill W. A.
*Birrell J. H.	*Hooke C. J.
*Camp I. A.	*Lowe p. S.
*Cherry J.	*Macdonald K. I.
*Dickson C. S. J.	*Mayberry P. J.
*Fairbairn L. A.	*Menzies P. J. F.
*Farquharson R. J.	*Moore M. J.

JUNE, 1970—61

- *Penna I. W.
- Power C. W.
- *Purnell A. T.
- * Steele N. R. C.

In Five Subjects:

- Amery R. H.
- *Baulch P. A.
- * Carroll I. A.
- *Erwin I. D.
- *Hastie R. B.
- *Hill P. T.
- *Hutchinson J. G.
- Hyett S. D.
- * Kennedy D. A.

In Four Subjects:

- *Anderson J. C.
- Cook J. W. R.
- Ford C. J.
- *Koch M. J.
- * Melville N. G.
- *Millikan S. W.

In Three Subjects:

- MacGillivray A. S.
- Morrow G. T. D.

In Two Subjects:

- Harrop R.
- Macdonald A. D.

In One Subject'

- Barr P. S.
- Bartlett P. J.
- Church R. S.
- Eagles B. A.

- Qualified to present for Matriculation.

TECHNICAL EXAMINATIONS

LEAVING

In addition to Form VA boys who passed the Internal Leaving Examination, the following boys passed at the Leaving Technical Examination:

In Seven Subjects:

- *Davies T. J.
- *Downey A. M.
- *Finlayson P. A.
- *Harris G. D.

- *Hepburn B. H.
- *Hunter G. R.
- *Young S. C.

In Six Subjects:

- *Bath D. K.
- *Bull C. F. G.

- *Colvin A. S.
- *Troeth T. J.

- Steele P. C. C.
- Wade P. A.
- Williams T. G.
- Wolter S. W.

- Kininmonth J. P.
- McKenzie E. D.
- Mountjoy G. H.
- Poynton G. G.
- Robertson G.
- Robinson C. R.
- Simson E. D.
- Spry S. W.
- Wood D. S.

- Penno P. W.
- Rolland P. B.
- Soon F. E. S.
- West T. P.
- Willett A. D.

- Pusztai A. F.
- Van Groningen J. H

- Pinniger H. R.

- Kroger M. D.
- Watson A. A.
- Wood T. G. B.

In Five Subjects:

- Balfour G. C.

In Four Subjects:

- Splatt C. L.

In Three Subjects:

- Baird D. L.
- Gavin M. F.
- Knight J. A.

In Two Subjects:

- Jones R. A.

In One Subject:

- Barr R. K.

- Qualified to present for Matriculation

- Herd R. J.

- Wood P. J.

- McDonald J.
- Osmond R. A.

- Lewis R. J.

INTERMEDIATE

In addition to Form IVA and Form IVB boys who passed an Internal Intermediate Examination, the following boys passed at the Intermediate Technical Examination:

In Seven subjects:

- Burt L. J.
- Collins D. F.
- Ooi R. A.

- Phillips W. C.
- Wettenhall I. H.

In Six Subjects:

- Aki A. N. F.
- Barber J. P. F.
- Barnes R. D.
- Carmichael A. R.
- Hutton T. D.

- Lyons N. G.
- McLarty N. A.
- Martin G. B.
- Vagg R. S.
- Wynne P. R.

In Five Subjects:

- Brunton S. J.
- Donald M. R.
- Gibson R. P.
- Griffiths D. F.
- Hall G. G.

- Harrison R. G.
- Hodgson P. R. J.
- Stray G. R.
- Whiting J. T. M.
- Young P. J. S.

In Four subjects:

- Anscombe D. S. W.
- Carmichael C. R.
- Flanagan J. F.
- Fleming P. J.

- Garrett G. R.
- Graham M. D.
- Hill K. N.
- Walker J. N.

In Three Subjects:

- Lumb G. R.
- Pavia A. R.

- Pyle G. R.
- Stewart W. M. S.

In Two Subjects:

- Anderson B.
- Chapman T. B.

- Stewart A. J.

In One Subject:

- Brown R. T.

SCHOLARSHIPS

SENIOR SCHOOL

Commonwealth Tertiary Scholarships:

Betts M. J.	Forsyth R. J.
Bourchier G. W.	Grainger C.
Chatham T. R.	Harding G. M.
Chettle G. T.	Henshaw P. B.
Clarke D. E.	Jaques S. R.
Collins J. H.	Lamb C. M.
David M. L.	McLean L. R.
Donald G. M.	Richards C. R.
Ellis D. W.	Robson L. C.
Embling D. J.	Seward H. G.
