" We must learn to observe two golden rules. These are, first, not to conceal from ourselves any real causes for uneasiness, and second, to detect and control those uneasy suspicions and superstitions which tend to make us infirm of purpose."

*Edward Qlover, in " The Psychology of Fear and Courage."*

*First let us face the facts.*

We are engaged in a war of victory or annihilation. Except Britain, every country in Europe to-day is controlled by a Germany set on world domination. If such a country as Sweden is still permitted its own government, it is merely that Germany has nothing to gain by its overthrow. Germany's conquests have been alarming in speed and extent, and we gain nothing by forgetting this.

What is more, it is certain that both the methods, and the aims of Hitlerism are rejected by the majority of those whom it controls; it is the rule of Force.

Except in the British Isles, we have nowhere succeeded in establishing a line of defence capable of resisting the enemy's attacks.

*Then let us explode the most common delusions.*

Unfortunately the remarkable similarity between this position and the state of Europe under Napoleon has led many people to an acceptance of the delusion, that just as democratic England resisted, and finally triumphed over, the European dictator in 1815, so must it to-day. Unfortunately wars are won by the power of men and material, especially material, not by historical precedent.

Even more prevalent and absurd is the delusion that the outcome of the war will be determined by the relative purity of the aims of the combatant nations. It is true that Britain is fighting for an idea of living, as well as for self-preservation, but that does not, in itself, ensure Germany's defeat. In the struggle of Might and Right, the latter has conquered only when backed by considerable military power, or led by a military genius.

The absurd expression: "Business as usual" has been too literally taken to heart by too many people. Anyone who emphasises the perils of our position is called a "defeatist," or at least an "alarmist". What the "business-as-usual" people must realise is that, first, they must change their 'business,' and secondly, it must not be at its old rate, but at top speed.

There are those, and we have all met them, who believe that, except for a change of flags, life would be just the same if we lost the war. There is a simple answer that will do more than hours of argument—Poland.

But by far the commonest delusion is that there are already enough people doing things, and that our help would be superfluous. Yet in the one and a half years since the declaration of war, we have won no victory that was either decisive or lasting, and we have, in one place only, halted the advance of the enemy, and there temporarily and imperfectly. That is the situation. Surely in the face of these facts, no-one can hold such opinions.

*"Come then, let us to the task . . ."*

We have been saying for one and a half years, "Something must be done!" And it is equally obvious what to do.

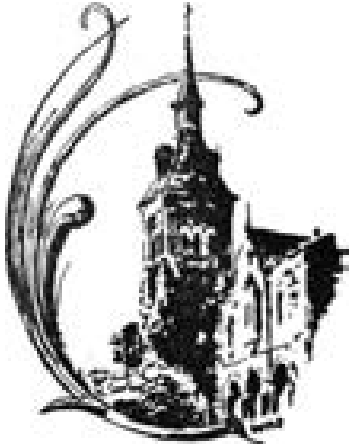

We must equip, arm, man, and maintain the forces, till they are stronger than the enemy. In this work there is a place for everybody, and few people have a right to be doing anything else.

We must stop being defenders: we must become crusaders.

### School Items.

On re-assembling at the beginning of the year, the school welcomed home the Principal, who had been absent last term on a trip to America as an envoy of Australian friendship. Mr. Holland enjoyed a wide range of new and interesting experiences abroad, and has gained valuable impressions, particularly on the American view of the war, which subject he has already discussed in lectures to the school.

It was with real pride that we learned that one of our masters, Lieut. Harry Dunkley, had been decorated with the Military Cross for his work in the first Libyan campaign. How well he is remembered was amply proved by the enthusiastic applause in morning assembly which greeted the announcement of his decoration!

There has been a spate of social events this year, beginning with a successful dance in the Morrison Hall, at which guests from both Morongo and the Hermitage were present. A junior dance held at Morongo was attended by a large party of College boys, all of whom enjoyed the function immensely, and at the beginning of this term a dance and tennis tournament attracted large numbers of us to the Hermitage.

Wednesday morning lectures by leaders of industry in this city have proved popular, especially as from them, many of the boys have been helped in their choice of a vocation.

Evening lectures have also been heard, notably one delivered by Messrs. Seed and Herbert of the Vacuum Oil Company, which was illustrated by interesting chemical experiments and by an excellent sound film on the oil industry in Sumatra, the Company's chief source of crude oil supplies.

On May 13th, the Headmaster presented the cup trophy for the Head of the Bay which title was won for us by College boys attending the Cowes camp.

An Oxford Group film illustrating the work of that movement amongst evacuated slum children in England was shown at a College service one Sunday night in the Morrison Hall.

Early in the term, tennis players and cricketers here entertained a party of Air Force trainees, who were glad of the relief from the routine of camp life.

Rev. W. L. Simpson was our Anzac Day speaker for this year, and delivered an interesting and appropriate address at a time when, while mourning our brave dead of the last war, we honoured those taking part in the second great struggle within a generation.

As part of the College effort £3/17/10 was paid into the Geelong and District War Funds—about eight dozen magazines were handed into the R.S.L. War Service Fund, and a considerable amount of waste consisting of tubes and silver paper was given in at the Geelong War Funds salvage depot.

#### STAFF.

At the first assembly of the year, the boys congratulated Mr. G. Logie Smith and Mr. J. Home, who were married during the summer holidays. Mr. D. Webb was congratulated on the birth of a son, while a few days later, Mr. A. E. Simpson was similarly cheered on the birth of a daughter.

A newcomer to our staff in February was Mr. H. T. Crunden B.A. who is chiefly concerned with Mathematics. Mr. Crunden has had wide and interesting experience in schools in Central Africa and in India; and we hope that he will enjoy his stay with us.

As we begin the second term we welcome also Mr. F. B. Cavalier, a teacher of wide experience in Victoria, South Australia and Western Australia. His interests are mainly in literature and history.

The post of Bursar vacated by Miss Reeves has been filled by Mr. G. J. Martin who, though not himself an Old Collegian, belongs to a well known Geelong family most of the members of whom attended the College. Mr. Martin was recently a banker at Echuca, and we hope that he will have a long and happy time at the College.

For the past eight years the arduous work of House-keeping has been performed smoothly and efficiently by Miss McRae to whom we are sorry to say good-bye. We are grateful for her care, and her helpfulness, and welcome in her place Miss R. Currie.

### Examination Results.

OUTSTANDING among the College's scholastic achievements for 1940 was the winning of eight scholarships to University Colleges, and the results at all standards of the University Public Examinations were very close to the record figures of 1939.

At the Leaving Honours examination, Phillips gained honours in five subjects. Aitken, Just, Mitchell and Souter, who each gained a first-class honour, were also very well placed. Just's performance in languages was unprecedented for the College; in addition to the three honours listed, he secured passes in German and Italian at the Leaving standard.

Special distinction was attained as follows:—State Senior Scholarship—R. R. Aitken. University Free Place—I. G. Mitchell. Scholarships to University Colleges—Ormond: R. R. Aitken, L. A. Cartwright, M. J. Cunningham, F. P. Just, I. W. McDonald, I. G. Mitchell, A. S. Tait; Queers: J. R. Phillips.

Honours awarded were: R. R. Aitken, 1st Latin, 2nd English, 3rd British and European History; M. J. L. Cooke, 3rd French and German; J. R. Cunningham, 2nd Physics, 3rd Maths. III; M. J. Cunningham, 2nd Latin, 3rd French; A. F. Davies, 3rd French; W. R. Dickson, 3rd Maths. III and Chemistry; W. G. Doig, 3rd British and European History; K. O. Gough, 3rd British History and English; P. H. Hall, 2nd Physics; F. P. Just, 1st French, 2nd Latin, 3rd English; A. J. Macdonald, 3rd Physics; I. W. McDonald, 2nd Chemistry, 3rd Physics; K. L. Menzies, 3rd European History and English; I. G. Mitchell, 1st Physics, 2nd Chemistry, 3rd Maths. III; J. R. Phillips, 2nd Maths. III and Physics, 3rd Maths. I, II and IV; M. I. Souter, 1st Drawing, 3rd English; A. S. Tait, 2nd French, 3rd Physics; F. G. Tait, 3rd Physics; C. M. Williams, 2nd European History and French, 3rd English.

### Preparatory School Notes.

ONCE again the roll of the Preparatory School exceeds one hundred names and includes several boys whose homes are beyond the shores of this country. Their accounts of other lands and other peoples are very interesting to us, and we are glad they have come as we know they will widen our horizons. We hope that they feel they have discovered a new home, here.

During the term the building has been extended by the addition of a new class-room. This room has been built on the western end of the original structure and occupies portion of the land which has only recently been acquired by the school. Its extensive window area ensures that it receives a maximum amount of sunlight and helps to make it a most attractive room.

We welcomed to the staff two new members at the beginning of the term—Miss Hamer, who is in charge of the Kindergarten and Mr. Chesterfield who takes the place of Mr. Watson. We hope that they will enjoy their stay amongst us. We were sorry that Mr. Campbell was far from well during considerable portion of the term and we trust that he will soon recover his health.

The election of prefects resulted in Donald Henderson being appointed Captain of the Prep, as well as House Captain of Bellerophon. The other prefects in Bellerophon are Gowty and Hooper, while in Pegasus Everist is captain and Borthwick, MacConachy and Wallace Smith are prefects.

As our oval was in course of reconstruction we played cricket on the Junior Oval and are able to report a successful season. In the House match Pegasus proved too strong for Bellerophon. Each attempt to play a match against Junior House at Corio failed because of unfavourable weather, but we had games against the Prep. "Old Boys" and against an Under 13 team from the Senior School. These games proved very exciting and several members of our team deserve congratulations for fine performances. Perhaps MacConachy deserves

## THE PEGASUS,

special mention for his fine bowling performances, which included performing the "hat-trick" on two occasions. Our captain was Neil Everist who handled the team most capably.

Each Tuesday afternoon found us at Eastern Beach where we managed to learn a little more about swimming and incidentally to enjoy ourselves thoroughly. Quite a number of boys learned to swim as a result of these visits to the baths. On 16th April we departed from custom and held our swimming sports in the morning. The weather was ideal and the innovation proved very successful. An interesting programme, which included events for those less expert as well as for the good swimmers, was drawn up by Mr. Simpson, whom we desire to thank for his interest.

The results were as follows:—

Prep. Championship—Borthwick, 1; Everist, 2.

Under 11 Events—Leggatt, 1; Blakiston, 2.

Floating—Kitto, 1; Wettenhall, 2.

Cork Hunt—Lloyd, 1; Sweetnam and MacConachy, 2.

Balloon Race—Nicolson, 1; Kitto, 2.

Wading Race—MacConachy, 1; Brunton, 2.

Dog Paddle—Salmon J., 1; Richardson P., 2.

House Relay—Pegasus.

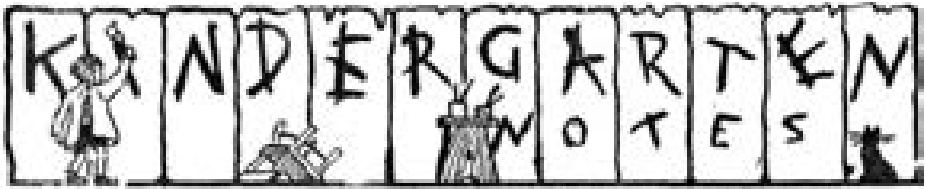

House competition won by Pegasus.

FIRST TERM has been one of great activity in the Kindergarten. The building has been re-painted and the grounds still further improved. New equipment has been added and has been of great value in making school life more interesting.

There are twenty boys in the Kindergarten and they have spent much time and shown enthusiasm in their own garden plots where they are growing flowers and vegetables.

Our store of books has been added to and the boys are encouraged to spend more time reading for themselves. A set of Children's Encyclopedias has proved a great attraction.

The small choir practises daily and sings enthusiastically in our morning Assembly.

Rest hour each afternoon has become quite a feature of our day, the small boys resting on individual rugs and cushions and the older ones having a period of "general information" in which they cover many and varied subjects.

One afternoon during the term the Kindergarten was open to the parents to give them the opportunity of seeing the boys at work and also of discussing their school life generally.

In this way we feel that we may be able to establish that feeling of co-operation between home and school life which is so desirable when dealing with young children.

**AS IT WAS, IS NOW, AND . . .**

A small bird with brightly coloured plumage  
comes to rest on the branch of the bare tree;  
the sun is shining, and the small bird sings,  
but it is Winter, and the tree is dead.  
The bird is singing . . . . but the tree is dead.

And then Spring comes, and the sap flows freely  
the small branch of the sleeping tree responds,  
and fresh young leaves now glisten in the sun.  
It is Spring, and the tree is vivid green.

The tree is green, and the small bird will come,  
an eager, living bird to woo the tree.

With fluttering wings the bird approaches;  
the branch is green; the bird shrills with delight.

But as the tingling claws feel for the branch,  
there is a shot!

The bird falls to the ground,  
and lies in the shadow of the green branch;  
its eyes are shut, and now it does not sing.  
It is Spring, and the branch is vivid green;  
the tree is living . . . . but the bird is dead.

**A MEETING\_\_\_\_\_**

Just an ordinary man, who sinned like other men,  
 Who went to Church, and slept, and then came home again,  
 With whom wise men had grappled, but had very rarely taught,  
 And who didn't use his intellect as often as he ought.  
 Just a range of common, little hills, a common hilly way,  
 It was quite a favourite walk of his, where he went every day.  
 A lame, old man; a bent, old man, on this same road he met,  
 Who, shuffling on his gnarled old bones, puffed dust about his feet,  
 Whose will alone kept him erect, and then did only just.  
 The common man on seeing him, recited "dust to dust".  
 And in a flash, he saw it all, his past with follies rife,  
 A plan for man's existence, and a pattern for his life.

Midnight.

White,  
the little town  
in the purple light . . .

Down  
the long, hilly range  
the strange  
party goes,  
woman,  
ass and man,  
and follows  
the road to the inn.

They are not able  
to stay  
there.

They go to the stable  
where  
oxen and asses wander  
in the hay, over yonder.

yellow light . . .  
straight ahead  
a sight-splitting neon  
purple and red, the narrow concrete street  
crammed tight  
with a maudlin mob . . .

Suddenly . .

at  
the little  
hamlet  
everything  
stands still . . .  
swallows above  
with outspread wing—  
and the dove:  
on the hill,  
the cattle,  
necks stretched out to drink:  
the brown sheep browsing on the brink.  
Then at some strange divine appeal,  
at the manger,  
the oxen and the asses kneel  
before the little Stranger.

### Cadet Corps Notes.

DURING First Term an attempt was made to give the two senior platoons greater variety of work, and close order parade ground drill was almost abolished, but it is doubtful whether this practice will be continued during Second Term as the results have not been satisfactory. The two specialist sections—Signallers and Intelligence—have done very good work, largely owing to the keenness of their leaders Sergt. C. M. Williams and Sergt. F. H. Davey. The Signallers with very little equipment have been of considerable use in tactical exercises while the Intelligence who are engaged in map work are revising and bringing up to date the map of the area west of the school. The schemes carried out have not been very successful owing partly to lack of experience, but also and in greater degree to lack of imagination of those taking part.

The miniature range, on which the Musketry will have to be fired, is being repaired and it is hoped that Nos. I and II Platoons will fire the prescribed course during Term II.

Owing to war conditions a change has had to be made in the uniform which now consists of tunic, shorts and stockings for summer wear and tunic and trousers for the cold weather. The parade on Anzac Day, when the Corps turned out in the latter uniform, was very well attended, and the bearing and marching of the Cadets were a credit to the unit.

We have just heard that there is a possibility of a certain amount of equipment being available very soon, so it should be practicable for at least the senior cadets to have some practice in handling both Vickers and Lewis machine guns in preparation for camp which we hope to hold during the year.

### **Library.**

SINCE the last notes appeared in "The Pegasus" a thorough re-numbering of all the books in the Library has taken place—with the result that the Library is now in good order—and will continue to be so, provided the users familiarise themselves with the Rules and Regulations covering its use and the taking of books out of the Library.

Several additions have been made to the shelves, notably in the English and Latin sections.

Of great use to the Hon. Classes will be, "The Concise Oxford Dictionary of English Literature" with its Complete Notes on Books—Writers and Characters in books and plays, etc.; "The Plays of Christopher Marlowe"; "Aeschylus—a Study in Tragedy" by Murray; and "The Imperial Theme" which deals with Shakesperian Tragedy and also with the Roman Plays. "The Burning Oracle" will help students in the study of Poetry, for it embodies new ideas on the six poets—Spenser, Shakespeare, Milton, Swift, Pope and Byron.

In the Classical Section, two quite new books have been added. These should be of interest to the student of History for "The Roman Revolution" deals with the decay of Republicanism and the restoration of the Imperial Rule; and "The Roman Citizenship" is a clear exposition of that desired status and deals with this from earliest times, both in Rome and in the provincial cities.

"Marcus Brutus," a new life of an outstanding Roman, could be read by both Latin and English Students.

EASTER  
HIKE TO  
CAPE OTWAY

In the Science section "Botany by Observation" is an Australian book, "Radio Physics Course" gives a most comprehensive account of Electrical Theory with many practical details not easily found elsewhere, "Industrial Chemistry" fills up a gap left by most text books, and a number of "Penguins" dealing with modern problems are well worthy of study.

Once again we would impress on all members of the upper classes the value of the Library, and we hope to see it so popular a spot that it may be necessary to find, some day, a more commodious housing for all the books.

### **Music.**

The news, received at the beginning of the year, that the "Carnegie Music Set" was "somewhere on the Pacific" stimulated interest in all the school musical activities. As a result, while we eagerly awaited its arrival, we made good use of many opportunities for broadening our knowledge and understanding of music. The Male Choir, Glee Club, Orchestra and Music Club, have all had a most successful first term.

The Orchestra so far has lacked a sufficiently strong bass, but this will be remedied largely by the addition of another 'cello, made possible by the generosity of our violin mistress, Miss Foster. To promote its use, and to stimulate interest in stringed instruments which are the backbone of an orchestra, she has also donated a 'cello scholarship. This was awarded to J. Salmon, who has always shown great interest in all the Musical Societies. So far this year the orchestra has studied, and can now play with some confidence, the overture "The Calif of Bagdad" and the "Suite Enfantine".

Although a great number of the male choir left at the end of last year, the choir still continues to meet, and with many new members now has a better balance of parts than before. We have this year, in

## THE PEGASUS,

addition to secular songs, been practising sacred anthems in preparation for a church service similar to the one which was so successful last year.

For the Music Club, last term was one of development of new and successful ideas, resulting in increased membership and greater popularity. The main feature was the presentation of programmes by individual members. Several boys also played their own favourite recordings, and all gave interesting and helpful reasons for their choice. There was no set syllabus, as it will be possible to compile a more extensive one from the Carnegie set. At one meeting Mr. Smith played several works by Debussy, a composer who was hitherto little known to us, and we are grateful to Mr. and Mrs. Carrington who kindly lent us recordings by Sibelius, Delius Gershwin and Berlioz. We have them to thank also for the gift of a work which appealed to all of us—the charming symphonic fairy tale "Peter and the Wolf".

The only concert we had last term, was that presented by Mrs. Carrington, known to her radio audiences as Miss Katie Liddle, who played works by Schumann, Chopin, Debussy, Dohnanyi. We do consider ourselves extremely fortunate in having Mrs. Carrington "on the premises/" for this programme was thoroughly enjoyed by all.

## GLEE CLUB.

"We are going to do "The Mikado" in 1941!" When we heard this at the end of last year our feelings were very mixed. Some asked "Can we do it?" the majority answered "I wonder". However, at the conclusion of the first practice this year, when everyone left the House of Music singing "If you want to know who we are" we knew we could, and would, produce it this year. All members have set to work with a will, and already the chorus work is known. This term we hope to have the fans at all practices, and thus acquaint ourselves with the elements of the stage work. All rehearsals have been well attended, and if the present progress is maintained, the club can look forward to another most successful year.

## **The House of Guilds.**

### **THE WARDENS REPORT.**

House of Guilds members have been as numerous as ever, more enthusiastic than ever, and busier than ever, during this term. The worries of the Warden on the other hand have been much less numerous and he has had to busy himself over fewer details than ever before.

This has been due in no small measure to the added responsibility which individual boys have accepted in several departments and to the efficient manner in which they have discharged these responsibilities.

Suggestions for new equipment, re-organisation of the store, the telescoping of the system of accounts into a much more compact routine, and the introduction of new interests within the House itself have all come from members themselves and have been worked out by them. Not all have proved successful, but they have all had a fair trial and have survived or perished on their merits in the hard school of experience.

If the House of Guilds is to continue to serve its purpose and sustain its interest in the lives of boys, this state of affairs must develop even further. One man cannot hope to make suitable suggestions for every boy of whatever age at any hour of the day, but he can provide the means whereby any boy can work out bright ideas of his own at any time.

Those of us who control the policy of the House of Guilds, are anxious to make the right sort of provision for the leisure time of members, and it is the boys who are to do the useful constructive work at the House to whom we look for the right sort of suggestions. The House of Guilds in its final expression should be the House of the Boys, run for boys by boys. The Warden can still be there and may reserve the right to have the last say, but never the biggest say. He too should be of the boys and for the boys. He is still glad to report that he is very happy at the House of Guilds and is anxious to talk over suggestions for further improvements with any member who is not happy.

### Swimming Sports.

**THE** Annual Swimming Sports were held at Eastern Beach Swimming Pool on Tuesday, March 11. The day was cool, although in the **late** afternoon the sun shone brightly, if not warmly. Despite the weather many visitors were attracted, and the afternoon's sport could scarcely disappoint them. The House Competition was won by Calvert, followed by Morrison, Warrinn and Shannon, in that order. B. Hyett was successful in the Open Championship: while the under 16, under 15, **and** under 14 champions were R. P. Charles, P. R. Hocking and D. G. Marshall.

#### PUBLIC SCHOOL MATCHES.

Report by Coach:—

The cricket season was the most interesting we have had for several years. With six of last year's players as a nucleus, the team showed promise of winning more matches than usual. However, rain interfered with the last three matches, and the side had little opportunity of showing its best form.

In spite of conditions, there were some good performances. Roydhouse was outstanding in all matches, batting confidently and mastering the difficulties of wet wickets. Hill, who led the team competently, improved in batting and bowling. Watkins showed a pre-

ference for dry conditions, and Johns played lively cricket. The bowlers, however, failed to take full advantage of the sticky wickets. Apart from patches of good bowling by Woodburn, Harding and Watkins, there were too many inaccuracies. A more hostile attack would have brought more success.

All members of the team were keen to improve, and the experience gained this year by the younger players should be beneficial next season.

We congratulate Scotch College on their meritorious championship.

## Rowing.

Mr. J. H. Campbell who has at one time or another interested himself in all other school activities, was this year good enough to organise the work on the river. As he did not, at the same time, have the responsibility of coaching a crew, there was a very full programme of work, and all boys benefited greatly by his systematic arrangement of times and craft.

The coaching of a crew is an exacting task, and we are grateful to those loyal helpers Messrs. A. B. Bell, Trevor Collins, Bruce McKenzie, Rod Lyall and Peter Roadknight for their help, interest and devotion.

## JUNIOR CREWS.

The Seconds spent an enjoyable day in Melbourne on May 3rd as the guests of Scotch College. The race on the Yarra was hard and even, with Scotch holding to the finish the slight lead they had at the start, and winning by a canvas.

On the Barwon on Saturday May 10th when we had our annual regatta with Geelong Grammar School, there was a strong westerly wind which made starting difficult. The first race, in which College 4th rowed against Grammar's 5th and 6th, was marred by an accident in the College boat when stroke lost his seat just after the start. Grammar generously allowed us another race on Monday when College were narrowly defeated by 3 ft. The Fourth Crew was J. T. Cowan, J. W. Brumley, R. M. Walpole, I. W. Towns, H. Sutherland, R. I. Menzies, R. J. Michael, P. W. Grutzner, R. M. Johnson (cox).

The Seconds crew was the best for some years, thanks not only to the excellent work of their coaches, but also to the keenness of the boys, who gave a very good account of themselves, and might have won had they rowed in the early stages as they did over the second half. They produced a magnificent finish, but could not overtake the Grammar Seconds who won by a third of a length.

The Second Crew was C. M. Williams, R. H. Zimmerman, D. G. Hope Johnstone, D. N. M. Fearon, A. W. Davies, S. K. Pearson, K. J. Stillman, D. S. Vanrenen, J. C. C. Shuter (cox).

In the last race our Third crew finished half a length behind the Grammar Thirds and a length and a half ahead of the Grammar Fourths, after a close and interesting race.

The Third crew was W. G. W. Dowling, R. P. Charles, D. L. T. Woolley, K. S. Nail, J. F. Neilson, D. M. Drury, D. K. Russell, F. G. Tait, G. A. Buchanan (cox).

#### HEAD OF THE RIVER.

The Head of the River Race was held on the Yarra on Thursday and Friday, May 15th and 16th. We were directly interested in the first heat, in which Scotch College finished four lengths ahead of our crew after leading all the way. Their time was 5 mins. 12 1-5th sees.

The Crews were:—

Scotch College (North station): R. G. Blacket (bow), 11.8; A. G. Simpson, 11.13; J. B. Ware, 12.4; J. F. McNicol, 12.10; J. S. Shaw, 11.13; H. Stretton, 12.6; G. A. Hagenauer, 12.9; G. D. Fisher (stroke), 11.7; R. K. Sim (cox), 8.8, average weight 12.2. Coach, Mr. G. H. Nicholson.

Geelong College (centre station): G. A. McKinley (bow), 11.0; J. R. Morrison, 10.8; J. A. C. McDonald, 13.1; J. H. Anderson, 11.0; J. M. Ferguson, 12.9; G. T. Exell, 14.7; J. A. Strickland, 11.4; T. V. Hawkes (stroke), 11.4; W. A. Martin (cox), average weight, 11.13. Coach, Mr. A. B. Bell.

The second heat showed Wesley beating Xavier by a similar margin, but the spectacle in the third heat compensated us for the disappointing results of the other two. Geelong Grammar and Melbourne Grammar fought every inch of the way, with the former leading until near the end when Melbourne Grammar just pulled ahead to win by a canvas.

On the following day the results in the final were: Scotch, 1; Melbourne Grammar, 2; Wesley, 3; won by a length in 5 mins. 12 2-5th seconds against an incoming tide. We congratulate Scotch most heartily. It is their first victory since 1927.

### Annual Meeting and Smoke Night.

THIS year the Old Collegians' Reunion was again held in Melbourne following the heats in the Head of the River races on May 15. Again the Oriental Hotel was the place of meeting but, in view of the times, the usual formal dinner gave place to the more informal and domestic smoke night.

At the Annual Meeting F. E. Moreton was re-elected to the position of President. The Report and Balance Sheet showed the financial difficulties of the Association and how these had been surmounted for the time being, thanks largely to a generous grant from the College Council. The hope was expressed that our membership would continue to increase, as it has done over the past year, towards a point that would free us altogether from financial worry. (At the moment the number of honorary members, by virtue of military service, still exceeds the number of ordinary financial members.) The keen and interested discussion on points raised at the meeting more than made up for the fact that the attendance was somewhat below last year's record figure, and augurs well for the future of the Association.

The President referred to T. G. Cole's forty years of service (since the inaugural meeting of the Association on 3rd May 1901) as Hon. Auditor and proposed his election as an Hon. Life Member. F. J. Boileau spoke in support and the election was approved with acclamation.

Dr. A. N. McArthur introduced a discussion on a suitable commemoration of this the eightieth year of the foundation of the College. He referred to Rev. F. W. Rolland's wonderful work for the school and put forward the suggestion that the Association could not do better than present to the College, as an eightieth birthday gift, a portrait of the present Principal. After several others had spoken in support, a motion was put and the meeting showed its unanimous approval.

At the smoke night the President proposed the toast of 'The College,' which he approached in somewhat mystical vein by way of the school motto. The Vice-Principal, A. T. Tait, in responding, chose

the different, but equally dangerous, line of statistics. Both succeeded in making us, if possible, prouder of our allegiance and more eager to see the College live and flourish.

An unexpected arrival was Dr. J. S. Battye, now Chancellor of the University of Western Australia, who was prevailed upon to give us a short talk of a general nature which was most inspiring.

The Principal, having been excused on this occasion from responding for the College, spoke all too briefly on his recent tour abroad. The burden of his address was the need of an ever stronger collaboration among all the English-speaking democracies.

Happy enthusiasm marked an evening filled with memories covering the greater part of the College's lengthening history.

### **Branch News.**

QUEENSLAND—An extremely happy little function took place on Friday evening, May 16, at the residence of Mr. and Mrs. C. E. Watt, 66 Wagner Road, Clayfield, Brisbane. The occasion was the eighty-eighth birthday of Ernest Watt, who was a pupil at the College in 1873 and is surely one of the oldest old boys still on deck. His son and daughter-in-law had been advised that some Brisbane O.G.C.'s would like to pay him a surprise visit on the occasion of his birthday and they readily acquiesced. Those who constituted the party were Dr. Alan Lee, Dr. Jock Adam, D. ("Turkey") Macdonald, John Watt, Clive Whitford and C. L. Thompson. Eric Bannister telephoned his good wishes. There was the traditional birthday cake with candles. The evening was spent in reminiscences, Mr. Watt's memory being very retentive, and his anecdotes about the original Head Master, Dr. George Morrison, provoked much interest and hilarity. The hope was expressed that all would be present to celebrate the eighty-ninth birthday "this time next year".

The Queensland Masonic Club was the venue of the annual dinner of the Old Victorian Public School Boys resident in Brisbane, held in celebration of Boat Race Night on Saturday evening, May 17. The toasts of the winning and losing crews were honoured in an enthusiastic manner and the community singing of the "The Best School of

All" and "Forty Years On" showed that the vocal capacity of those present had not declined much since boyhood. Old Geelong Collegians present were E. W. H. Fowles M.A., LL.D., Litt.D., who spoke in his characteristically witty manner, George Deans, who presided at the piano, Dr. Alan Lee, Clive Whitford and C. C. Baird.

### **Adventure over Iraq.**

Pilot-Officer Brian Duigan has had some remarkable experiences during his lengthy service with the R.A.F. in England. He was transferred to the Middle East some time ago, and in his latest letter home he gives an interesting description of a call he made with his bomber at Iraq. After stating that he is fighting fit and enjoying the heat at 115 degrees in the shade, he goes on:—

"I flew across Bagdad very low to show the flag, and had a look at Ur of the Chaldees, the celebrated Euphrates and Tigris rivers, and the Dead Sea on the way back.

"I very nearly came to an untimely end. I was bombing the enemy concentrations around Habbaniyah aerodrome by daylight. I made one trip in the morning, picking up a few bullet holes, and came back in the afternoon for another crack. After using up all my bombs I came down machine-gunning their positions, and got badly caught in their ground defence.

"Fifty-eight bullets went through various parts of the machine, one shell tore through the port wing, and another exploded in the fuselage. The petrol tanks were badly holed, and there was a hole almost large enough to crawl through in the port wing. The aerodrome was under machine-gun and shell fire, but as I reckoned I couldn't get home I made a quick landing, and taxied behind a hangar before any more damage was done.

"The local ground staff got to work, and by 9 o'clock that morning had the machine in more or less fit condition to fly again. This was no mean feat, as the Iraqi army had been spasmodically shelling the area. My crew and I had a most uncomfortable time from 4.30 in the morning until we took off dodging the shrapnel. Thank goodness I'm not in the army!

"The take-off was great fun. A couple of Gladiators circled overhead to keep the Iraq Air Force away, and the armoured cars raced out and around the aerodrome as a diversion and to raise a dust cloud. I shot out from behind the hangar like a bullet, turned through a narrow gap just wide enough to let me through, at about 30 miles per hour, on to the 'drome, and away in a cloud of dust and bullets.

"I got away all right and returned to the base. We couldn't do much for the machine there. Some of the main members had been shot through in the wing, and the petrol tanks were bad. I had to fill one tank up to a big hole, then drain off some and take a chance in order to leave Habbinayah. They fixed it up as well as possible, and I flew it back to Egypt for repairs, thus missing the last of the campaign, which was disappointing."

### The University.

#### DEGREES COMPLETED 1940-41.

Master of Laws—J. A. Crawcour.

Bachelor of Arts—R. A. Blackwood, E. L. French, J. E. Richardson.

Bachelor of Science—J. M. Collocott (University of Sydney), L. E. Errey, R. W. K. Honeycombe.

Bachelor of Medicine and Bachelor of Surgery—G. G. C. McKenzie, L. O. Morgan, K. N. Morris, A. E. Piper, H. N. B. Wettenhall.

Bachelor of Civil Engineering—A. W. Douglas.

Bachelor of Mechanical Engineering—D. W. Lees.

Bachelor of Dental Science—G. F. R. Cole.

#### PROGRESS IN COURSES.

At the annual examinations the following passes were credited to Old Collegians. In the courses for which the completion of years is not specified the number of subjects passed is shown after each name.

Arts—First year: J. K. Aitken, J. D. Legge, B. C. McKenzie, I. A. H. Turner. Third year: W. H. Steel.

Science—First year: N. A. McKinnon, A. F. Pillow. Second year: J. G. McMaster.

Engineering—First year: H. G. Badger, R. W. R. Muncey. Second year: H. J. Thorogood, J. K. Steel.

Medicine—First year: J. W. Barret. Second year: R. K. Doig, A. S. Feddersen, R. J. Gough, H. T. Ramsay, N. G. Sutherland, R.

D. Watson. Third year: J. M. Kemp, W. G. MacGregor, P. J. C. Stretton. Fourth year: J. A. P. Buchanan, D. B. Duffy. Fifth year: J. G. Simpson.

Dental Science—First year: N. J. Webster. Second year: K. S. McDowall.

Agricultural Science—First year: S. M. Paton.

Commerce—A. Douglas (2), R. L. Morrison (2), R. S. McKenzie (1).

Once again Collegians carried off a large number of honours and special awards. R. W. K. Honeycombe shared the Dixson research scholarship in Engineering; A. W. Douglas was equal for first place and the "Argus" scholarship in Civil Engineering finals. J. D. Legge gained first place and the exhibition in Ancient History, and shared first place and the Marion Boothby exhibition in British History "B". In Botany, Part I, S. M. Paton shared one of the Brunning prizes. Doing his second year of Civil Engineering, R. W. R. Muncey secured first place in both Surveying, Part I, and Strength and Elasticity of Materials. K. N. Morris, G. G. C. McKenzie and H. N. B. Wettenhall were among the leading ten in the final year of Medicine, and have gone to the Melbourne Hospital.

D. B. Duffy finished third in fourth year Med., and B. C. McKenzie was third in French, Part I.

#### 'VARSITY VARIETY.

C. K. Davidson did sixth year Medicine last year; but was unfortunately prevented by sickness from doing either his Final or Supplementary examination.

D. W. Lees is an engineer at the Whyalla ship-building yards.

D. R. Wong has gone down from Queen's and is now on circuit.

J. M. Kemp is now doing Dentistry.

Having completed Pharmacy, Norman Mellor has undertaken the medical course.

H. G. Badger has dropped his course for the while and is now an apprenticed engineer at a Munitions factory.

T. T. Laidlaw, after passing his first year of an Arts Law course, is now in the R.A.A.F., J. S. Davidson is also at a training school.

## Dear Collegians, THE ORMOND LETTER.

Another first term has come to an end, but this year first term has had a different atmosphere about it to those in previous years. In those days first term meant settling down gradually into College life with plenty of sport, social activities and perhaps a little work. This year however, social activities have been limited and subdued, sport was played but there was not quite the same interest in it as in previous years, and everyone in College is working harder than before, more especially those medical students whose final examinations loom three to six months earlier than usual.

We were glad to see a good crowd of Old Collegians amongst the Freshmen this year:—Bill Doig, George Barrett, Malcolm Cunningham, Lindsay Cartwright, Peter Bartlett, Gordon McKinley, Alan Tait, Ian W. McDonald and Andrew J. Macdonald. They all settled down quickly and are taking an active part in College life.

The first sporting fixture of the year was the cricket, in which Ormond defeated Trinity in the first round but were beaten by Queen's in the final. Old Collegian representatives in the team were Dave Watson and Bill MacGregor. Ormond again won the rowing with an excellent crew, defeating Newman in the heat and Queen's in the final. The Barrett brothers and Cartwright were Old Collegians in the winning eight. We narrowly lost the Athletics to Newman, Jock Simpson, Neil Sutherland, Dave Watson and Bill Doig being Old Collegians who ran for Ormond.

There are twenty-one Old Collegians in Ormond this year, representing a big percentage of the whole College, and they are all playing an active part in College and University life. Doug Duffy is Chairman of the General Committee, men like Jock Simpson, Neil Sutherland and Dave Watson play a large part in Ormond's sporting success, while Howard Steele, Len Errey and Ron Doig add to Ormond's laurels in the scholastic line.

Ormond students send their greetings to all Old Collegians at home and abroad, especially to those who left us to join the fighting forces, and we hope it will not be long before they can return to complete their interrupted courses.

Best wishes to all!

### Twenty-five Years Ago.

(Extracts from "Pegasus" of May 1916)

#### SCHOOL OFFICERS, FIRST TERM, 1916.

Senior Prefect—T. B. Hawkes. Prefects—H. I. Gibb, W. E. Macmillan, L. E. Reid, C. R. Clutterbuck, C. G. Carr. Cricket Captain—J. B. Hawkes. Vice-Captain—R. N. Campbell. Captain of the Boats—T. B. Hawkes. Vice-Captain—L. E. Reid

#### SCHOOL ITEMS.

A splendidly-framed photograph of the late Lieut. N. L. Campbell has been presented to the school by his father, Mr. Neil Campbell.

Since the beginning of the term the boys in the Upper School have been allowed one period during the week in which they may exercise their vocal organs in singing suitable school songs or patriotic airs.

Those who have had the privilege at any time of walking hurriedly down the asphalt on the eastern side of the pavilion will be interested to know that the asphalt has been ruthlessly torn up and has been replaced by a small flight of steps.

#### UNIVERSITY OF MELBOURNE PUBLIC EXAMINATIONS.

A. E. Lee and F. M. Burnet have been awarded Government Exhibitions, the former obtaining fourth place on the list and the latter thirteenth.

#### CRICKET AVERAGES.

E. Philip is at present leading in batting with an average of 17.2. In bowling, L. Reid has taken 19 wickets for an average of 19.

#### PRACTICE MATCHES.

College v. Batesford—won by 59 runs. This match was a new departure which turned out a great success. We had a very enjoyable game and appreciated very much the hospitality of the Batesford team and their friends.

#### COLLEGE SWIMMING SPORTS.

The annual swimming sports were held at the Western Baths on Wednesday, March 22nd. C. E. Backwell won the championship in 1 min. 7 2-5th secs, which is a record for the school.

#### THE PUBLIC SCHOOLS' BOAT RACE.

In the second heat our crew (following what seems to have become an established custom) were drawn against Wesley College. Our

fellows got off smartly and led for about a quarter of a mile; Wesley then drew up and passed us and eventually won by two lengths.

On the Saturday an unfortunate incident robbed the proceedings of a good deal of interest. The boats got away to a good start, and, having safely negotiated the bend, were engaged in a neck and neck struggle, when the Wesley cox unaccountably steered his boat towards that of the Geelong Grammar School, and an obvious foul occurred. The umpire, Mr. H. Young, at once stopped the race, and decided that Wesley College must be disqualified and the two Grammar Schools row again after a sufficient interval.

#### THE CHRISTENING OF THE "W. R. BAYLY".

The formal christening ceremony of the eight-oared boat, generously presented by our former Headmaster, Mr. W. R. Bayly, took place on the afternoon of April 19th at the College boat sheds. Mr. and Mrs. Bayly were unable to be present at the ceremony which was performed by Dr. Baxter, President of the O.G.C.A.

#### OLD BOYS' COLUMN.

An interesting group photograph has reached us of Old Boys who were on the troopship "Demosthenes" in January 1916. The members of the group were:—Capt. (Dr.) Longden, Lieut. C. H. Latta, Sergt. H. Macknight, and Privates R. A. Reid, A. B. Wilson and A. H. MacRoberts (former master).

Capt. R. Lambie, who was appointed Adjutant at the Geelong Camp last year, has been transferred to Ballarat and is serving in a similar capacity there. He is due to leave for the front in a few days as Adjutant of the 39th Battalion with the rank of Captain.

#### OLD BOYS' DAY.

The Annual Re-union of the O.G.C.A. attracted a large gathering of Old Boys to the Norman Morrison Memorial Hall on Friday evening, May 5th.

Many Old Collegians returned from Anzac were present in uniform.

Dr. R. H. Morrison was elected President for the ensuing year.

A cable from Erskine Collins said that there were 200 Old Collegians in Egypt and they were endeavouring to hold a re-union simultaneously with that in Geelong.

### DEATH OF MR. D. E. STODART.

Just as we are going to press we hear of the death of Mr. D. E. Stodart, formerly owner of Mooramong Station. Mr. Stodart entered the College on the opening day 1861. Three of his sons, all Old Boys, have seen service in the present war. Mr. Stanley Calvert, nephew of the deceased, represented the College at the funeral.

### Life Members.

The following have become Life Members of the Association during the past year:—N. L. Gordon (1934), A. C. Thorns (1923), J. W. D. Robin (1928), D. G. Duffy (1932), J. C. Kininmonth Jr. (1934), R. D. Birdsey (1925), L. M. Calvert Jr. (1937), C. S. Shannon (1933), J. W. Kenny (1936), N. H. Williams (1937), G. F. Waugh (1923), D. A. Dobie (1918), E. C. Wynn (1926), R. W. R. Muncey (1935), J. W. Young (1906), J. C. Mathews (1926), P. E. Bartlett (1940), I. R. Hope (1940), R. Lyall (1940), L. C. Mathews (1891), R. J. L. Dennis (1940), T. G. Cole (1878)—Honorary, H. Jacobs (1917), V. X. Hassett (1929).

### DINING ROOM FURNITURE.

Chairs have been presented to the Dining Hall by D. C. Gaunt (1935) and Mr. George Martin for the late Z. S. Martin (1887).

### Brevities.

The Secretary has received several letters and personal comments from Old Boys in the forces, thanking the Association for sending "Pegasus". It is good to know that this service is appreciated, as it was in the last war.

Our President, F. E. Moreton, has recently passed through a most critical illness. Old Collegians, in common with his many other friends, will be pleased to know that he is now firmly established on the road back to his normal good health.

G. C. Hawker has featured in press photographs in connection with the capture of an Italian General. He also has two sons at the war.

T. R. Coulstock is now a member of the teaching staff of the Junior Technical College, Geelong.

L. J. P. Gill has been transferred to the Wangaratta branch of the E. S. & A. Bank.

G. F. & R. J. Higgins have become members of the legal firm of J. L. Price Higgins & Speed, Geelong, in the place of their late father.

O. D. Fallaw has been appointed manager of the Broken Hill office of the Union Bank.

D. A. White is in the Mildura office of the Commercial Banking Co.

A. D. Butcher fills the newly created office of biologist to the Fisheries and Game Department. He is engaged in unravelling the mysterious breeding habits of bream and schnapper.

R. P. McLean is now in the Inspector's office of the Bank of N.S.W., Melbourne.

J. A. Crawcour was admitted to practise as a barrister and solicitor of the Supreme Court of Victoria on May 1.

J. D. Morrison is in the merchant service as a wireless operator.

C. M. Cotton, who was for several years with the "Geelong Advertiser," has accepted a position on the news staff of the Australian Broadcasting Commission, Melbourne.

Cargi Greeves is to be congratulated on becoming Champion of Champions among Bendigo bowlers at a very immature age.

E. L. French, while studying for the Diploma of Education as an interlude to his theology course, is teaching at Haileybury College, Hampton.

A. W. Douglas is with the Melbourne and Metropolitan Board of Works, his particular care at the moment being the new Upper Yarra dam.

A. D. and J. W. R. Houston are in Port Moresby with the Australasian Petroleum Co.

Cr. A. W. Coles, M.H.R., paid a flying visit to England recently to "see for himself". His views and comments, since published, have proved of great public interest.

E. R. B. Roberts has received his wings and commission with the R.A.A.F. in Canada.

Leo Young, whose story of his adventures in Holland featured in our last issue, has been invalided out of the R.A.F. on account of illness caused by exposure.

Mr. George Martin, son of the late Z. S. Martin (1887), who has the unfortunate distinction of being perhaps the only one of the Martin family who did not attend the College, has made belated amends by becoming bursar of the College in succession to Miss Reeves. We congratulate him on the appointment and wish him a long, happy and useful term in his new position.

Harry Lucas has returned to Brisbane where he is now engaged as an Inspector of the Commonwealth Bank.

Don ("Turkey") Macdonald (1908) is now resident in Brisbane and is on the staff of Castlemaine Perkins Ltd.

Following the death of Dr. Reggie Morrison, the "Geelong Advertiser" printed a comprehensive account of the whole Morrison family, written by Frank Guthrie. From this we have taken most of the matter for the obituary note appearing on another page.

In completing his final year at the Melbourne University Architectural Atelier, John P. Mockridge was awarded the President's Prize. He has been registered by the Architects' Board and is engaged on important work with the Department of the Interior.

F. P. Just (1940) has undertaken the articulated clerks' course with the firm of Whyte, Just and Moore.

Dr. J. S. Battye has been re-elected Grand Master of the Grand Lodge of Western Australia for the sixth time.

Letters received recently from Major J. D. Rogers give a detailed and vivid picture of his experiences in Greece and Crete.

### OBITUARY.

Dr. R. H. ("Reggie") Morrison (1881), a Past President of the O.G.C.A., died in a private hospital in Melbourne on May 1. He was the second son of the late Dr. George Morrison, the founder, of the Geelong College. A splendid athlete at school, Reggie played senior football before going to the Edinburgh University to study medicine. He had not been long at Edinburgh before he excelled at Scotland's national game, rugby football, and he played for the University and for Scotland against England, Wales and Ireland. In addition to being a magnificent three-quarter back, he won all sorts of athletic events, from 100 yards flat to 440 hurdles, throwing the cricket ball, and also swimming events.

With scholastic and athletic honours thick upon him, Dr. Morrison returned to Australia to become one of the best known gynaecologists. To the end he was a handsome, athletic looking man, as all the Morrisons were.

Reggie Morrison married in Scotland Miss Profitt, who survives him, and

resides in Toorak, Melbourne. Their three sons, all Old Collegians, are all serving the Empire to-day—Tim, in the British Army in India; David, an administrator in the Middle East; and Norman, the youngest, who has a pastoral property near Seymour, but is now serving as a Lieutenant in the A.I.F.

C. H. Glover (1902) died at Geelong on February 27. On leaving the College he attended the Gordon Institute of Technology and was later apprenticed to the engineering firm of Humble & Sons. He afterwards became chief engineer at the Oriental Timber Mills, North Geelong, but then entered his father's business, C. Glover & Sons, wool and skin merchants; at his death he was a co-partner in the firm with his elder brother, Mr. Jos. Glover. He was for some years a Geelong City Councillor. In the sporting world he was always prominent, having been a Geelong footballer, gunshot and oarsman; and at the time of his death he was immediate past president and a vice president of the Corio Bay Rowing Club. Both his sons are Old Collegians.

A. E. Newbury (1905) died at Melbourne on April 2. He became one of our leading painters and has been called the Corot of Australian art; none has depicted more truly the beauties of Australian light, colour and character. Several excellent specimens of his work are in the Melbourne and Geelong Art Galleries.

J. A. Cochrane (1877) died at Geelong on April 4. His life was devoted to pastoral and agricultural pursuits. He became ultimately a leading breeder of Border Leicester sheep on his property at "Aitkenside," Ceres, with the stud flock that was founded by his father in 1881; he was also one of Victoria's greatest authorities on onions, which he himself grew extensively. For research and pleasure he made many trips abroad. At the time of his death he was an elder and trustee of St. George's Church, Geelong.

T. G. Fagg (1891) died at Geelong on April 29. He was director and secretary of Fagg Bros. Pty. Ltd., timber and hardware merchants, of South Geelong, and was well known for his activities with the Try Boys' Brigade and the Aberdeen Street Baptist Church. Two of his sons are Old Collegians.

J. F. Holloway (1885) died at Sydney on December 26, 1940.

M. H. Jenkins (1877) died at Sydney on December 28, 1940.

A. P. Anderson (1914) died at Geelong on April 2.

J. H. Dardel (1904) died at Melbourne on May 19. After leaving the College he was employed as an engineer at Humble's foundry, Geelong. Later he went to Scotland to take up a position as marine engineer with the shipbuilding firm of John Brown & Co., and while in Britain joined the Royal Australian Navy, with which he served aboard the former H.M.A.S. Sydney throughout the last war. Upon retiring from the service in 1933 he was awarded the Meritorious Service Medal. Afterwards he was appointed constructional engineer with the State Electricity Commission at Yallourn, and retained that position until the beginning of the present war, when he was recalled for service at the Navy Office. At his death he held the rank of Engineer Lieutenant-Commander.

To the bereaved families of our departed fellow Collegians we extend deepest sympathy.
